

Quarterly Monitoring Against Corporate Performance Indicators

Detailed breakdown by indicator

**Second Quarter 2014/15
(July ~ September)**

Strategic Aim 1: Prevention

Reducing risk by educating our communities to prevent fires and other incidents occurring

Prevention Priority 1

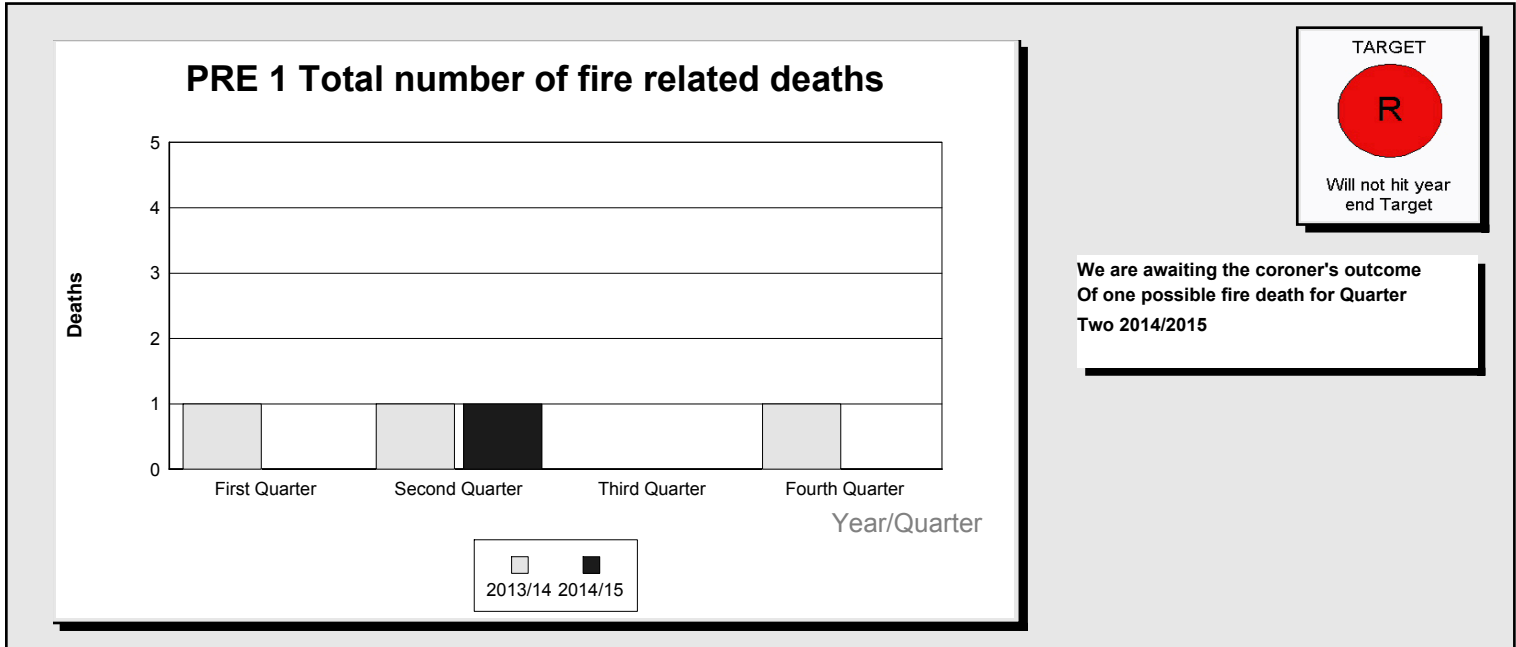

To reduce the risks to people from fire in the home, targeting those most at risk

Strategic Aim 3: Response

Ensuring that our response delivers a swift and professional service in an emergency

Response Priority 1

To protect our community and reduce the risks to firefighters by ensuring known risks are quickly and accurately made available to them prior to their arrival, to provide a safe and effective response

Indicators have been developed, it is intended that these will be reported against from April 2013

Sleeping risks may be private or commercial premises and can be defined as any premises where members of the community may reasonably be expected to be sleeping at any time, and include:

- Dwellings (all house types, flats and houses in multiple occupation)
- Hotels (including guest houses and bed and breakfast establishments)
- Hospitals
- Residential care homes, nursing homes and sheltered housing
- Caravans and tents (at designated campsites and caravan parks)
- Prisons

Response Priority 2

To provide an effective operational response to fires, road traffic collisions, and other incidents; protecting and saving lives, and reducing the damage and environmental impacts of fire
