## **1. Introduction**

- 1.1 At each meeting, the Authority's internal auditors present their findings following an agreed programme of quarterly audits. To support this, the auditor's findings are aligned to improvement activities to strengthen and resolve the identified issues. Together these form the basis of an Audit Improvement Plan.
- 1.2 This report contains progress against each of these improvement actions.

## **2. Improvement Areas**

- 2.1 Although a number of recommendations were identified within the audits, none have been judged to represent a significant risk to the Authority.
- 2.2 All recommendations have been recorded within Appendix A, where details of the Service's progress have been set out.
- 2.3 As previously agreed, once considered by Members, those activities from the previous quarter's audits that were reported as complete will be removed from subsequent reports.

## **3. Summary and key points**

- 3.1 There are no significant areas of slippage to report to Members. Progress continues to be regularly monitored by Directors. The Committee will receive an updated report at their next meeting, which will include progress made on the outstanding audit improvements.
