Recruitment statistics

Query:

In 2017 how many roles were advertised externally by your organisation, and how many of these positions were filled by internal applicants already within the workforce?

Response:

Wholetime – A new recruitment drive was begun in late 2017 but the process has only been completed in recent weeks. Therefore, there would have been no appointees, external nor internal, in 2017. However, if we are to include appointees from this drive, there were 5 successful internal applicants as a result of vacancies advertised in 2017.

Control – 4 vacancies advertised. 2 successful internal applicants were appointed in 2017.

On-Call – Our On-Call advert is permanently open on the DWFRS website to all. 1 successful internal applicant was appointed in 2017.

Corporate – 69 vacancies advertised. 12 successful internal applicants were appointed in 2017.
