## **1. Introduction**

- 1.1 As Members are aware, the Dorset & Wiltshire Fire and Rescue Service's (the Service) performance is reviewed around the strategic priorities set out in the Community Safety Plan. This committee oversees the performance against Priorities 4 and 5 - *Making Every Penny Count* and *Supporting and Developing our People*, with the Local Performance and Scrutiny Committees scrutinising service delivery performance at a local level.
- 1.2 Part of this innovative approach to reporting and scrutiny has been to anchor reporting to specific Key Lines of Enquiry (KLOE). Each of the Strategic Priorities is supported by four KLOEs. These are designed to pose specific questions, which in answering, provide Members with an evidence base to explain what has been put in place to deliver the priorities.
- 1.3 A baseline assessment was completed for 2017-18 against each KLOE and the evidence collected for each KLOE has been assessed against three levels – Developing, Established and Advanced - to determine the overall level of performance that has been achieved.
- 1.4 This report sets out the performance for the Quarter 2 of 2018-19 and will be supported by the attendance of key officers at the meeting to answer any specific points Members may wish to raise.

## **2. Summary and Key Points**

- 2.1 The use of KLOEs is an innovative approach to reporting performance. This approach provides a structured means for Members to receive performance information within a wider context.
- 2.2 There are no new significant issues to raise with Members at this time and good progress is being made.
- 2.3 The Quarter 3 performance report will be provided to the Finance & Governance committee on the 7 March 2019.
