

MINI C19 SUPERHEROES

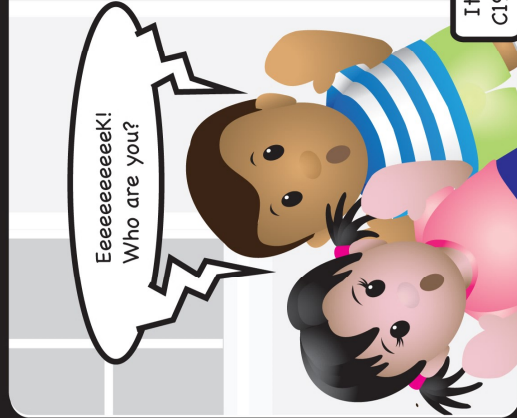

I don't want to wash my hands!

Me neither, they are clean enough.

Mummy had asked Lilly and Tim to wash their hands thoroughly with soap.

Suddenly, there was a loud bang and a flash of light.

Eeeeeeeeeek!
Who are you?

It was Wilma, one of the C19 Mini Superheroes.

Hello Tim and Lilly. It is important that we all wash our hands properly and often, with warm water and soap for at least 20 seconds.

Washing your hands properly removes dirt, viruses and bacteria.

Excellent!

Thanks Wilma, you are the best! We will wash our hands and stay safe from now on.

When we wash our hands, we are also helping the doctors and nurses in the NHS to keep us all safe.

The End
