## **1. Introduction**

- 1.1 At each meeting, the Authority's internal auditors present their findings following an agreed programme of quarterly audits.
- 1.2 To support this, the auditors' findings are aligned to improvement activities to strengthen and resolve the identified issues, and these form the basis of the Service's Audit Improvement Plan.
- 1.3 This report contains progress against each of the improvements within the plan.

## **2. Improvement areas**

- 2.1 A number of recommendations have been identified within the audits. However, none have been judged to represent a significant risk to the Authority.
- 2.2 All recommendations not yet completed have been recorded within appendix A, Audit Improvement Plan Activities, where details of the Service's progress have been set out.
- 2.3 The Service continues to review the audit improvement activities and provides a focus on those reported with delays, to ensure appropriate support is provided for their successful delivery.
- 2.4 There are currently delays to two of the agreed audit actions. These delays are as a result of the ongoing impact of the Coronavirus pandemic, within the resources of the Health and Wellbeing team.
- 2.5 As previously agreed, once considered by Members, those activities from the previous quarter's report which were reported as complete will be removed from subsequent reports.

## **3. Summary and key points**

- 3.1 The Service continues to positively progress the audit improvements with progress of the improvement plan being continually monitored by Directors within their directorate team meetings.
- 3.2 The Finance & Audit Committee will receive an updated report at their next meeting on 28 July 2021, which will include progress made on the outstanding audit improvements.
