Sirens fitted to new vehicles

Query:

May I ask what sirens are fitted to your New Gen Scania. For reference, the vehicle with the license plate 'WX70EYL'

Response:

The siren fitted is the Woodway BETA124R, with a BETAMIC handset.

There is also a STVRU12 unit, which quietens the siren for test mode.

Information/Detail accurate on the date provided: 17, August 2022
