## **1. Introduction**

- 1.1 At each meeting, the Authority's Internal Auditors present their findings following an agreed programme of quarterly audits.
- 1.2 To support this, the Auditors' findings are aligned to improvement activities to strengthen and resolve the identified issues, and these form the basis of the Service's Audit Improvement Plan.
- 1.3 This report contains progress against each of the improvements within the plan.

## **2. Improvement areas**

- 2.1 A number of recommendations have been identified within the audits. However, none have been judged to represent a significant risk to the Authority.
- 2.2 All recommendations that were outstanding following the previous meeting have been recorded within Appendix A, Audit Improvement Plan Activities, where details of the Service's progress have been set out.
- 2.3 The Service continues to review the audit improvement activities and provides a focus on those reported with delays, to ensure appropriate support is provided for their successful delivery.
- 2.4 As previously agreed, once considered by Members, those activities from the previous quarter's report which have been reported as complete will be removed from subsequent reports.

## **3. Summary and key points**

- 3.1 The Service continues to positively progress the audit improvements with progress of the improvement plan being continually monitored by Directors within their Directorate team meetings.
- 3.2 There have been some minor delays to two of the recommendations due to the need to undertake recruitment processes. Revised completion dates have been added to Appendix A and it is noted that these recommendations are graded as low priority (P3).
- 3.3 The Finance & Audit Committee will receive an updated report at their next meeting in March 2023, which will include progress made on the outstanding audit improvements.
