

Freedom of Information Request FOI 23 51

DWFRS Crewing

Query:

I request to have a list of how many firefighters are based at each station whether they be retained, day crewed or wholetime firefighters, as well as a breakdown of numbers as to how many watch commanders and crew commanders there are per station. I also request a list of how many firefighters are required to crew each appliance in the county.

Plus would like to receive information as to how many station commanders there are and what stations their based at as well as what stations they oversee. Also, information with regards to which stations the group commanders are based at.

Response:

Please find attached an Excel spreadsheet (FOI 23 51 – DWFRS Crewing) with the information that you have requested.
