### Stations called out on 5th September

#### Query:

Could I please have information on which Stations were called out on 5th September 2023 between 1am and 9am. I have looked on your website but can find very little for this date either on your main page or on stations' incident pages.

All I require is the station name, callout time and if possible the incident type (such as RTC, house fire, flooding, assist other agency etc).
