These contact details are not to be used for the purposes of direct marketing, as per the UK GDPR Article 21, which affords individuals the right to object to such marketing.

Energy Management System Contract(s) - Contract(s) relating to the organisation's energy management system. An energy management system (EMS) is a system of computer-aided tools used by operators of electric utility grids to monitor, control, and optimise the performance of the generation or transmission system.

Currently, we do not have an EMS system.

Energy Management System Provider
