

Freedom of Information Request FOI 25 01

Station detail and appliance mobilisation stats

Query:

Could you please publish a spreadsheet document with...

Column 1 being the station number (01 - 61)

Column 2 being the name of the station (e.g Lyme Regis, Charmouth etc.)

Column 3 containing each stations appliances (e.g WRL, L4T, CSU etc.)

Column 4 containing each appliance type (e.g Water Tender Ladder, Aerial Ladder Platform, Co Responder etc.)

Column 5 containing the number of emergency calls each appliance was mobilised to between 1st January 2024 and 31st December 2024

Column 6 containing the number of times each appliance was mobilised on standby duties

Additional Notes:

I would also like included the callout statistics for the appliances removed from Sturminster Newton, Wareham, Marlborough and Corsham between 1st January 2024 and the date of removal.

For appliances such as Royal Wootton Bassett's Water Carrier which was replaces this year, I would like 2 separate rows (1 row showing callout statistics for the old WRC between 1st January and the date of replacement and a second row showing the statistic of the new WRC between the date of replacement and 31st December 2024)

Response:

Please see the attached spreadsheet.

We've highlighted appliances that were removed during 2024 in 'grey' and those that were replaced during 2024 in 'Blue'.

Information/Detail accurate on the date provided: 13, January 2025
