False alarm calls/attendance records for an address

Query:

I currently live opposite friars court and abbots court in Lytchett Matravers. There has been numerous false fire alarms go off causing yourselves to attend which is always a false alarm. On the 01/01/25, we had two fire engines out to the above properties again due to false fire alarms. I've contacted the housing association today as last night the alarm went off but the fire service were unable to turn it off. It was still going off two hours after it started. I'm asking if I can see how many times the fire service were called to the above properties over the past two years if possible?

Response:

I can confirm that 14 incidents have been attended for the period 1 January 2023 to 1 January 2025.
