

Freedom of Information Request FOI 25 65

Number of fires caused by sunlight being magnified/reflected off glass/mirrored surfaces in last five years

Query:

Under the Freedom Of Information Act, I would like to request the following information:

The number of fires, if any, that Dorset & Wiltshire Fire and Rescue Service attended that were caused by sunlight being magnified by or reflected off glass or mirrored surfaces in the last five years.

I would like you to provide this information in the format of a statistics table if possible.

Reply:

Dorset & Wiltshire Fire and Rescue Service (DWFRS) does not have a category within our Incident Reporting System for the subject requested. As a result, we did a further search within the incident narrative looking for glass or mirror. We have no recorded incidents which were caused by sunlight being magnified by or reflected off glass or mirrored surfaces over the last five years.

Information/Detail accurate on the date provided: 29, May 2025
