

Freedom of Information Request FOI 26 21

Dorset incidents by station

Query:

I would like to request the following details for each fire station in Dorset:

The total number of incidents each station has responded to in each of the last three financial years (2022/23, 2023/24, and 2024/25).

A breakdown of the types of incidents attended over the same period (for example, fires, false alarms, road traffic collisions, and special service calls).

If possible, could the break down of types of incidents be listed by station.

Response:

Please find attached the information that you have requested.

Information accurate on the date provided: 25 February 2026
