Questions

Dorset & Wiltshire Fire and Rescue Authority – Public Consultation

We know that proposing fire station closures will not be welcome news for many of our communities and staff. No decisions have been made.

The Fire & Rescue Authority has a statutory duty to set a balanced budget. Following a detailed review of service activity, response times, station availability and funding, we are consulting on proposals which include the potential closure of eight fire stations across Dorset and Wiltshire.

We want to hear your views before any decision is taken. Share your views by completing the consultation survey.
