Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

1. The Legislative Framework

1.1 Like all public-sector bodies, fire and rescue authorities (FRAs) and the fire and rescue services (FRSs) for which they are responsible, are required to operate in accordance with a wide range of legislation. Much of the legislation in question applies across all public services, but there are some aspects of the legislative landscape that are particularly relevant to the fire and rescue service.

2. The Fire and Rescue Services Act 2004

2.1 This is the main piece of legislation under which fire and rescue services operate. The 2004 Act (amended in 2018) provides the legal basis establishing fire and rescue authorities, the political bodies responsible for overseeing the work of fire and rescue services. It also sets out details of the statutory community safety-orientated duties that fire authorities have. These are referred to as 'core functions' and can be summarised as follows:

- ◆ Promoting fire safety
- ◆ Extinguishing fires, and protecting life and property when fires do occur
- ◆ Minimising damage to property arising from firefighting operations
- ◆ Rescuing people involved in road traffic collisions
- ◆ Dealing with other types of emergencies, as specified by the Secretary of State in Statutory Instruments (Orders). Currently, a single Order has been issued, requiring fire authorities to make provision to attend the following types of incidents:
 - Chemical, biological, radiological or nuclear emergencies
 - Emergencies involving the collapse of a building or other structure
 - Emergencies involving trains, trams or aircraft
- ◆ Ensuring the provision of the resources necessary to meet all normal requirements (the 2004 Act does not define what constitutes 'normal', it is a matter for local determination)
- ◆ Ensuring necessary training for firefighters
- ◆ Ensuring that (999) calls for assistance can be dealt with effectively
- ◆ Obtaining information needed to respond safely and effectively to emergencies

2.2 As well as the duties outlined above, the 2004 Act provides FRAs with a power to exercise their discretion in responding to other emergencies that constitute a risk to life and/or the environment. It is under this power, for example, that fire and rescue services respond to flooding emergencies.

Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

- 2.3 Beyond legislating for the duties and powers of fire and rescue authorities, the 2004 Act also introduced the Fire and Rescue National Framework. This framework sets out Government's expectations and requirements for FRAs in England. The Secretary of State must keep the document under review, and reports to parliament every two years on the extent to which it is being complied with.
- 2.4 Whilst there is no absolute legal requirement to adhere to the contents of the framework, the legislation states that FRAs 'must have regard' to it in carrying out their functions. In practice, this means that a compelling case would need to be made to justify any departure from the requirements laid out in the framework.

The priorities specified for FRAs in the current version of the national framework are to:

- ◆ *make appropriate provision for fire prevention and protection activities and response to fire and rescue related incidents;*
- ◆ *identify and assess the full range of foreseeable fire and rescue related risks their areas face;*
- ◆ *collaborate with emergency services and other local and national partners to increase the efficiency and effectiveness of the service they provide*
- ◆ *be accountable to communities for the service they provide; and*
- ◆ *develop and maintain a workforce that is professional, resilient, skilled, flexible and diverse.*

- 2.5 In terms of how FRAs are expected to address these priorities, there are two mechanisms incorporated in the national framework that are central to the process of their doing so. The first is integrated risk management planning (IRMP), and the second involves the preparation of an annual Statement of Assurance.

3. Integrated Risk Management Planning

- 3.1 Integrated risk management planning is a cyclical process that involves assessing community risk; deciding on steps that need to be taken to manage it efficiently and effectively; implementing the steps in question; and then reviewing their impact before commencing the cycle again. Details associated with each element of this process are required to be published by FRAs in an Integrated Risk Management Plan. Our plan is called the Community Safety Plan.
- 3.2 The term 'integrated' is used to reflect the fact that community risk is managed by balancing service delivery interventions across three disciplines.

Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

- ◆ **Prevention** - the practice of trying to prevent emergencies from happening in the first place
- ◆ **Protection** - the practice of ensuring that fire safety standards in buildings are appropriate
- ◆ **Response** - the practice of minimising the impact of emergencies through well-trained, well-equipped firefighters responding to them quickly and effectively.

3.3 Where the IRMP process leads FRAs to contemplate making material changes to prevention, protection and/or response service provision, there is a requirement to undertake a public consultation on options. FRA members must then 'conscientiously consider' consultation responses before deciding on any changes that will be made.

4. Statements of Assurance

4.1 Statements of Assurance are produced annually by FRAs and published after having been subject to the authority's scrutiny arrangements. In accordance with the national framework, the statements "...must provide assurance [to government, members of the public and other stakeholders] on financial, governance and operational matters."

5. The Regulatory Reform (Fire Safety) Order 2005

5.1 The Regulatory Reform (Fire Safety) Order 2005 (RRO) is the legislation under which fire safety standards in almost all buildings are controlled. 'Single private dwellings,' i.e., people's homes, are specifically excluded, although the common areas (access corridors, staircases, etc) in blocks of flats do fall within the scope of the RRO.

5.2 The RRO replaced previous legislative fire safety requirements with a 'self-compliant' regime. This is based on the principle that those responsible for the day-to-day management of buildings should also be responsible for ensuring that necessary fire safety arrangements are in place. The 'responsible person' is required to undertake a fire risk assessment. They must then use the findings from the assessment to decide on the steps necessary to manage fire risk down to a reasonable level.

5.3 FRAs are responsible for enforcing the RRO and do so by undertaking risk-based inspection programmes. These involve carrying out audits of fire safety arrangements in premises that fire officers consider to present the greatest risk.

6. The Civil Contingencies Act 2004

- 6.1 The Civil Contingencies Act (CCA) was introduced to establish a coherent framework within which organisations would work together to plan for dealing effectively with major emergencies.
- 6.2 Under the CCA, fire and rescue authorities are designated as ‘category 1 responders’. As such, they are members of multi-agency groups known as Local Resilience Forums (LRF). These LRFs - which cover geographical areas matching the boundaries of police forces - are required to collaborate in undertaking a range of functions:
- ◆ Assessing the risk of emergencies occurring, and using this risk assessment to compile a community risk register, and inform contingency planning activity
 - ◆ Putting in place emergency plans
 - ◆ Putting in place business continuity management arrangements
 - ◆ Putting in place arrangements to make information available to the public about civil protection matters, and maintain arrangements to warn, inform and advise the public in the event of an emergency
 - ◆ Sharing information with other local responders to enhance co-ordination
 - ◆ Co-operating with other local responders to enhance co-ordination and efficiency
 - ◆ Providing advice and assistance to businesses and voluntary organisations about business continuity management (this applies to local authorities only).

7. The Crime and Disorder Act 1998 (CDA)

- 7.1 Fire and rescue authorities are designated as ‘responsible authorities’ under the CDA. This means that they are required to work alongside other responsible authorities (police, local authorities, the probation service and clinical commissioning groups) on community safety partnerships (CSP). CSPs are defined as “an alliance of organisations which generate strategies and policies, and implement actions and interventions concerning crime and disorder within their partnership area.” In this capacity, they hold a collective, statutory responsibility for reducing crime and disorder, substance misuse and re-offending in each local authority area.
- 7.2 In exercising their functions under the CDA, responsible authorities must have regard to the police and crime objectives set out in the police and crime plan for the police area which comprises, or includes, that local government area.

Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

8. The Policing and Crime Act 2017

- 8.1 The Policing and Crime Act 2017 sets out a number of provisions that will impact on the way in which FRSs operate and are governed. The 2017 Act introduced a statutory requirement for fire, police and ambulance services to collaborate if it is in the interests of each of their efficiency and effectiveness to do so. Where a collaboration agreement would negatively impact efficiency, effectiveness or public safety, the duty to enter into it is set aside.
- 8.2 The Policing and Crime Act also established distinct routes by which Police and Crime Commissioners (PCC) can become directly involved in the governance of FRS:
- a) By making a business case demonstrating that it would be in the interests of economy, efficiency and effectiveness, or public safety, for a PCC to replace an existing fire and rescue authority as a 'PCC-style FRA'. These PCC-style FRAs can be constituted using either a 'governance model' (where employment responsibility for FRS and police employees remains separate), or a 'single employer model' (where employment responsibility for all employees is combined). Such changes in governance require approval of the Home Secretary and would lead to PCCs being re-designated as Police, Fire and Crime Commissioners.
 - b) By PCCs being appointed as voting members of existing fire and rescue authorities. Such appointments will be subject to agreement by FRA Members, in response to a formal request from a PCC.

Governance & funding arrangements

9. Fire and Rescue Authority Structures

- 9.1 There are currently 45 FRAs in England.
- 9.2 Where fire and rescue services share a boundary with a single upper tier council, the council is the authority. In this scenario, the FRS is an integral part of that council, alongside other services such as social care, education, public health and highways. There are currently 15 FRAs of this type in England (13 county councils, the unitary authority in Cornwall and the Council of the Isles of Scilly).
- 9.3 In non-metropolitan areas where the FRS's boundary incorporates more than one upper tier council, a stand-alone combined fire authority (CFA) is responsible for its governance. CFAs are comprised elected councillors appointed by the leaders of each constituent council, with the number of members from each being based on relative electorate population size. The requirement to reflect this, and the need to achieve political balance, informs a

Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

calculation on the overall size of CFAs, with the largest having around 25 members. There are currently 23 CFAs in England.

- 9.4 In metropolitan areas (with the exception of London and Manchester), arrangements are similar to those in areas where CFAs exist, with members being appointed from constituent metropolitan councils. Five FRAs of this type currently exist in England.
- 9.5 London has a unique governance structure in comparison to other fire and rescue authorities. The London Fire Commissioner is a corporation sole and the fire and rescue authority for London. It is a functional body of the Greater London Authority. The Mayor of London sets its budget, approves the London Safety Plan, and can direct it to act. There is a Deputy Mayor for Fire and Resilience.
- 9.6 Greater Manchester fire service also now comes under the control of a mayor, although unlike in London the mayor is the fire and rescue authority. The mayor is responsible for discharging the duties of the fire and rescue authority, and is supported in this role by a Fire Committee, comprising 15 members – all of whom are appointed from the ten local authorities in the Greater Manchester area.

10. The Governance Role of Fire and Rescue Authorities

- 10.1 The governance role of FRAs generally reflects that found in local authorities. Essentially, FRA members are responsible for determining the policy direction of their FRS; setting a budget to fund delivery of that policy direction; and undertaking scrutiny to ensure that intended outcomes are being achieved economically, efficiently, effectively and in accordance with statutory requirements. This is with the professional support and advice from their officer colleagues.
- 10.2 In contrast to the police service, where both chief constables and PCCs can be responsible for employing staff, FRAs are employing authorities that employ all FRS staff – both uniformed (operational staff) and non-uniformed (support staff).
- 10.3 In practice, many of the FRAs' legal responsibilities and other functions are assigned to sub-committees of the authority, or to officers via formal schemes of delegation.
- 10.4 FRAs must appoint the following statutory officers who, in combination, are required to ensure that the authority conducts its affairs appropriately:

A head of paid service, who is responsible for:

- Overall corporate management and operational activity of the FRS
- Provision of professional advice to the FRA and its committees

Dorset & Wiltshire Fire and Rescue Authority

Legislative Framework and Governance & Funding Arrangements

- Ensuring a system for recording and reporting FRA decisions, together with the Clerk.

A Chief Finance Officer, who is responsible for:

- Establishing a framework for the proper administration of the FRA's financial affairs
- Setting and monitoring compliance with financial management standards
- Establishing an adequate and effective system of internal audit
- Advising on the corporate financial position, and key controls necessary for sound financial management
- Giving accurate, impartial advice and information on financial issues to the FRA, and the FRS's senior management team.

A Monitoring Officer who is responsible for:

- Ensuring that no action of the FRA contravenes any legislation or code of practice, or may lead to a charge of maladministration.
- Preparing a formal report for the FRA, after consultation with the Head of Paid Service, Chief Finance Officer and Clerk where they consider that any proposal, decision or omission will give rise to unlawfulness or maladministration.
- Appointment of a Deputy Monitoring Officer

In addition to the above statutory roles the Clerk to the FRA is responsible for:

- Standards of conduct for members of the FRA in conjunction with the Monitoring Officer
- Maintaining the FRA's handbook which contains the FRA Standing Orders
- Ensuring a system for recording and reporting FRA decisions, together with the head of paid service
- Together with the Chief Finance Officer and in consultation with the Monitoring Officer, if needed, advising the FRA when their decisions are not in accordance with the policy and budget framework

10.5 Where PCC-style FRAs are formed in the future, in accordance with provisions contained in the Policing and Crime Act 2017, PCCs will also be required to appoint individuals into each of the above statutory roles; however, they can be shared between the PCC style FRA and PCC's office.

11. Handling of Complaints

11.1 The Localism Act 2011 places a statutory duty on relevant Authorities to maintain high standards of conduct by Members. The expected standards are outlined in the code of conduct in section 2.6. A process for dealing with complaints related to Members' conduct is detailed in Appendix A.

Dorset & Wiltshire Fire and Rescue Authority
Legislative Framework and Governance & Funding Arrangements

12. National Leadership and Representation for Fire and Rescue Authorities

12.1 The Local Government Association (LGA) plays a central role in co-ordinating the efforts of, and providing representation for, FRAs in England. The LGA's Fire Commission provides a forum to discuss and develop policy positions on matters of common interest and concern to FRAs. The Fire Commission has a Fire Services Management Committee (FSMC) which acts on behalf of the commission.

12.2 Members of the FSMC also represent their Fire Commission colleagues on a recently formed Fire Reform Board (England). This board brings these political leaders from the LGA together with representatives from the Home Office and the National Fire Chiefs Council (formerly known as the Chief Fire Officers' Association) to collectively and strategically shape the national FRS reform agenda.

13. Funding Arrangements

13.1 The vast majority of the financial resources available to FRAs are provided by a combination of council tax and funding from central government. Government funding is provided through the local government finance settlement in the form of revenue support grant (a general grant to meet revenue costs) and business rate retention. Other ring-fenced grants are also provided for specific purposes. Beyond these main sources of funding, FRAs raise funds through charging for some non-emergency services, and a number also generate income from commercial trading activities.

It is also intended to cover incidental costs such as subsistence and use of Members' homes and ICT devices, including telephones.
- 3.2 Where a Member is suspended or partially suspended from their duties as a Member, the part of their basic allowance, any special responsibility allowance and any other allowance or reimbursement otherwise payable to them in respect of the period for which they may be suspended or partially suspended shall be withheld. Similarly, if as a result of a decision of a Member's constituent council they cease to be a member of the Authority, then the payment of all allowances shall cease from the date of that decision.

Councillor Code of Conduct

Definitions

For the purposes of this Code of Conduct, a “councillor” means a member or co-opted member of a local authority or a directly elected mayor. A “co-opted member” is defined in the Localism Act 2011 Section 27(4) as “a person who is not a member of the authority but who

- a) is a member of any committee or sub-committee of the authority, or;
- b) is a member of, and represents the authority on, any joint committee or joint sub-committee of the authority;

and who is entitled to vote on any question that falls to be decided at any meeting of that committee or sub-committee”.

For the purposes of this Code of Conduct, “local authority” includes county councils, district councils, London borough councils, parish councils, town councils, fire and rescue authorities, police authorities, joint authorities, economic prosperity boards, combined authorities and National Park authorities.

Purpose of the Code of Conduct

The purpose of this Code of Conduct is to assist you, as a councillor, in modelling the behaviour that is expected of you, to provide a personal check and balance, and to set out the type of conduct that could lead to action being taken against you. It is also to protect you, the public, fellow councillors, local authority officers and the reputation of local government. It sets out general principles of conduct expected of all councillors and your specific obligations in relation to standards of conduct. The LGA encourages the use of support, training and mediation prior to action being taken using the Code. The fundamental aim of the Code is to create and maintain public confidence in the role of councillor and local government.

General principles of councillor conduct

Everyone in public office at all levels; all who serve the public or deliver public

services, including ministers, civil servants, councillors and local authority officers; should uphold the [Seven Principles of Public Life](#), also known as the Nolan Principles.

Building on these principles, the following general principles have been developed specifically for the role of councillor.

In accordance with the public trust placed in me, on all occasions:

- I act with integrity and honesty
- I act lawfully
- I treat all persons fairly and with respect; and
- I lead by example and act in a way that secures public confidence in the role of councillor.

In undertaking my role:

- I impartially exercise my responsibilities in the interests of the local community
- I do not improperly seek to confer an advantage, or disadvantage, on any person
- I avoid conflicts of interest
- I exercise reasonable care and diligence; and
- I ensure that public resources are used prudently in accordance with my local authority's requirements and in the public interest.

Application of the Code of Conduct

This Code of Conduct applies to you as soon as you sign your declaration of acceptance of the office of councillor or attend your first meeting as a co-opted member and continues to apply to you until you cease to be a councillor.

This Code of Conduct applies to you when you are acting in your capacity as a councillor which may include when:

- you misuse your position as a councillor
- Your actions would give the impression to a reasonable member of the public with knowledge of all the facts that you are acting as a councillor;

The Code applies to all forms of communication and interaction, including:

- at face-to-face meetings
- at online or telephone meetings
- in written communication
- in verbal communication
- in non-verbal communication
- in electronic and social media communication, posts, statements and comments.

You are also expected to uphold high standards of conduct and show leadership at all times when acting as a councillor.

Your Monitoring Officer has statutory responsibility for the implementation of the Code of Conduct, and you are encouraged to seek advice from either your Clerk or Monitoring Officer on any matters that may relate to the Code of Conduct.

Standards of councillor conduct

This section sets out your obligations, which are the minimum standards of conduct required of you as a councillor. Should your conduct fall short of these standards, a complaint may be made against you, which may result in action being taken.

Guidance is included to help explain the reasons for the obligations and how they should be followed.

General Conduct

1. Respect As a councillor:

1.1 I treat other councillors and members of the public with respect.

1.2 I treat local authority employees, employees and representatives of partner organisations and those volunteering for the local authority with respect and respect the role they play.

Respect means politeness and courtesy in behaviour, speech, and in the written word. Debate and having different views are all part of a healthy democracy. As a councillor, you can express, challenge, criticise and disagree with views, ideas, opinions and policies in a robust but civil manner. You should not, however, subject individuals, groups of people or organisations to personal attack.

In your contact with the public, you should treat them politely and courteously. Rude and offensive behaviour lowers the public's expectations and confidence in councillors.

In return, you have a right to expect respectful behaviour from the public. If members of the public are being abusive, intimidatory or threatening you are entitled to stop any conversation or interaction in person or online and report them to the local authority, the relevant social media provider or the police. This also applies to fellow councillors, where action could then be taken under the Councillor Code of Conduct, and employees, where concerns should be raised in line with the local authority's members officer protocol.

2. Bullying, harassment and discrimination as a councillor:

2.1 I do not bully any person.

2.2 I do not harass any person.

2.3 I promote equalities and do not discriminate unlawfully against any person.

The Advisory, Conciliation and Arbitration Service (ACAS) characterises bullying as offensive, intimidating, malicious or insulting behaviour, an abuse or misuse of power through means that undermine, humiliate, denigrate or injure the recipient. Bullying might be a regular pattern of behaviour or a one-off incident, happen face-to-face, on social media, in emails or phone calls, happen in the workplace or at work social events and may not always be obvious or noticed by others.

The Protection from Harassment Act 1997 defines harassment as conduct that causes alarm or distress or puts people in fear of violence and must involve such conduct on at least two occasions. It can include repeated attempts to impose unwanted communications and contact upon a person in a manner that could be expected to cause distress or fear in any reasonable person.

Unlawful discrimination is where someone is treated unfairly because of a protected characteristic. Protected characteristics are specific aspects of a person's identity defined by the Equality Act 2010. They are age, disability, gender reassignment, marriage and civil partnership, pregnancy and maternity, race, religion or belief, sex and sexual orientation.

The Equality Act 2010 places specific duties on local authorities. Councillors have a central role to play in ensuring that equality issues are integral to the local authority's performance and strategic aims, and that there is a strong vision and public commitment to equality across public services.

3. Impartiality of officers of the council as a councillor:

3.1 I do not compromise, or attempt to compromise, the impartiality of anyone who works for, or on behalf of, the fire and rescue service.

Officers work for the fire and rescue service as a whole and must be politically neutral (unless they are political assistants). They should not be coerced or persuaded to act in a way that would undermine their neutrality. You can question officers in order to understand, for example, their reasons for proposing to act in a particular way, or the content of a report that they have written. However, you must not try and force them to act differently, change their advice, or alter the content of that report, if doing so would prejudice their professional integrity.

4. Confidentiality and access to information as a councillor:

4.1 I do not disclose information:

- a. given to me in confidence by anyone**
- b. acquired by me which I believe, or ought reasonably to be aware, is of a confidential nature, unless**
 - i. I have received the consent of a person authorised to give it;**
 - ii. I am required by law to do so;**
 - iii. the disclosure is made to a third party for the purpose of obtaining professional legal advice provided that the third party agrees not to disclose the information to any other person; or**
 - iv. the disclosure is:**
 - 1. reasonable and in the public interest; and**
 - 2. made in good faith and in compliance with the reasonable requirements of the local authority; and**
 - 3. I have consulted the Clerk prior to its release.**

4.2 I do not improperly use knowledge gained solely as a result of my role as a councillor for the advancement of myself, my friends, my family members, my employer or my business interests.

4.3 I do not prevent anyone from getting information that they are entitled to by law.

We must work openly and transparently, and our proceedings and printed materials are open to the public, except in certain legally defined circumstances. You should work on this basis, but there will be times when it is required by law that discussions, documents and other information relating to or held by us must be treated in a confidential manner. Examples include personal data relating to individuals or information relating to ongoing negotiations.

5. Disrepute as a councillor:

5.1 I do not bring my role or fire and rescue Authority (FRA) or Service (FRS) into disrepute.

As a Councillor, you are trusted to make decisions on behalf of your community and your actions and behaviour are subject to greater scrutiny than that of ordinary members of the public. You should be aware that your actions might have an adverse impact on you, other councillors and/or your FRA/FRS and may lower the public's confidence in your or FRA/FRS's ability to discharge your/its functions. For example, behaviour that is considered dishonest and/or deceitful can bring your FRA/FRS into disrepute.

You are able to hold the FRA/FRS and fellow councillors to account and are able to constructively challenge and express concern about decisions and processes undertaken by the council whilst continuing to adhere to other aspects of this Code of Conduct.

6. Use of position as a councillor:

6.1 I do not use, or attempt to use, my position improperly to the advantage or disadvantage of myself or anyone else.

Your position as a member of the FRA provides you with certain opportunities, responsibilities, and privileges, and you make choices all the time that will impact others. However, you should not take advantage of these opportunities to further your own or others' private interests or to disadvantage anyone unfairly.

7. Use of FRA/FRS resources and facilities as a councillor:

7.1 I do not misuse FRA/FRS resources.

7.2 I will, when using the resources of the FRA/FRS or authorising their use by others:

- a. **act in accordance with the FRA/FRS's requirements; and**
- b. **ensure that such resources are not used for political purposes unless that use could reasonably be regarded as likely to facilitate, or be conducive to, the discharge of the functions of the FRS or of the office to which I have been elected or appointed.**

You may be provided with resources and facilities by the FRA/FRS to assist you in carrying out your duties as a councillor.

Examples include:

- office support
- stationery
- equipment such as phones, and computers
- transport
- access and use of local authority buildings and rooms.

These are given to you to help you carry out your role as a councillor more effectively and are not to be used for business or personal gain. They should be used in accordance with the purpose for which they have been provided and the FRSs own policies regarding their use.

8. Complying with the Code of Conduct as a Councillor:

8.1 I undertake Code of Conduct training provided by my FRS.

8.2 I cooperate with any Code of Conduct investigation and/or determination.

8.3 I do not intimidate or attempt to intimidate any person who is likely to be involved with the administration of any investigation or proceedings.

8.4 I comply with any sanction imposed on me following a finding that I have breached the Code of Conduct.

It is extremely important for you as a councillor to demonstrate high standards, for you to have your actions open to scrutiny and for you not to undermine public trust in the FRA/FRS or its governance. If you do not understand or are concerned about these processes in handling a complaint you should raise this with your Clerk or Monitoring Officer.

Protecting your reputation and the reputation of the FRA/FRS

9. Interests as a councillor:

9.1 I register and disclose my interests.

Section 29 of the Localism Act 2011 requires a register of interests to be maintained of members of the FRA.

You need to register your interests so that the public, employees and fellow councillors know which of your interests might give rise to a conflict of interest. The register is a public document that can be consulted when (or before) an issue arises. The register also protects you by allowing you to demonstrate openness and a willingness to be held accountable. You are personally responsible for deciding whether or not you should disclose an interest in a meeting, but it can be helpful for you to know early on if others think that a potential conflict might arise. It is also important that the public know about any interest that might have to be disclosed by you or other councillors when making or taking part in decisions, so that decision making is seen by the public as open and honest. This helps to ensure that public confidence in the integrity of local governance is maintained.

You should note that failure to register or disclose a disclosable pecuniary interest as set out in **Table 1**, is a criminal offence under the Localism Act 2011.

Appendix B sets out the detailed provisions on registering and disclosing interests. If in doubt, you should always seek advice from your Clerk or Monitoring Officer.

10. Gifts and hospitality as a councillor:

10.1 I do not accept gifts or hospitality, irrespective of estimated value, which could give rise to real or substantive personal gain or a reasonable suspicion of influence on my part to show favour from persons seeking to acquire, develop or do business with the FRA/FRS or from persons who may apply to the FRA/FRS for any permission, licence or other significant advantage.

10.2 I register with the Clerk any gift or hospitality with an estimated value of at least £50 within 28 days of its receipt.

10.3 I register with the Clerk any significant gift or hospitality that I have been offered but have refused to accept.

In order to protect your position and the reputation of the FRA/FRS, you should exercise caution in accepting any gifts or hospitality which are (or which you reasonably believe to be) offered to you because you are a councillor. The presumption should always be not to accept significant gifts or hospitality. However, there may be times when such a refusal may be difficult if it is seen as rudeness in which case you could accept it but must ensure it is publicly registered. However, you do not need to register gifts and hospitality which are not related to your role as a councillor, such as Christmas gifts from your friends and family. It is also important to note that it is appropriate to accept normal expenses and hospitality associated with your duties as a councillor. If you are unsure, do contact your Clerk for guidance.

Appendices

Appendix A – The Seven Principles of Public Life

The principles are:

Selflessness

Holders of public office should act solely in terms of the public interest.

Integrity

Holders of public office must avoid placing themselves under any obligation to people or organisations that might try inappropriately to influence them in their work. They should not act or take decisions in order to gain financial or other material benefits for themselves, their family, or their friends. They must disclose and resolve any interests and relationships.

Objectivity

Holders of public office must act and take decisions impartially, fairly and on merit, using the best evidence and without discrimination or bias.

Accountability

Holders of public office are accountable to the public for their decisions and actions and must submit themselves to the scrutiny necessary to ensure this.

Openness

Holders of public office should act and take decisions in an open and transparent manner. Information should not be withheld from the public unless there are clear and lawful reasons for so doing.

Honesty

Holders of public office should be truthful.

Leadership

Holders of public office should exhibit these principles in their own behaviour. They should actively promote and robustly support the principles and be willing to challenge poor behaviour wherever it occurs

Appendix B Registering interests

Within 28 days of becoming a member or your re-election or re-appointment to office you must register with the Clerk the interests which fall within the categories set out in **Table 1 (Disclosable Pecuniary Interests)** which are as described in "The Relevant Authorities (Disclosable Pecuniary Interests) Regulations 2012". You should also register details of your other personal interests which fall within the categories set out in **Table 2 (Other Registerable Interests)**.

"Disclosable Pecuniary Interest" means an interest of yourself, or of your partner if you are aware of your partner's interest, within the descriptions set out in Table 1 below.

"Partner" means a spouse or civil partner, or a person with whom you are living as husband or wife, or a person with whom you are living as if you are civil partners.

1. You must ensure that your register of interests is kept up-to-date and within 28 days of becoming aware of any new interest, or of any change to a registered interest, notify the Clerk.
2. A 'sensitive interest' is as an interest which, if disclosed, could lead to the councillor, or a person connected with the councillor, being subject to violence or intimidation.
3. Where you have a 'sensitive interest' you must notify the Clerk with the reasons why you believe it is a sensitive interest. If the Clerk agrees they will withhold the interest from the public register.

Non participation in case of disclosable pecuniary interest

4. Where a matter arises at a meeting which directly relates to one of your Disclosable Pecuniary Interests as set out in **Table 1**, you must disclose the interest, not participate in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest, just that you have an interest. Dispensation may be granted in limited circumstances, to enable you to participate and vote on a matter in which you have a disclosable pecuniary interest.

Disclosure of Other Registerable Interests

5. Where a matter arises at a meeting which **directly relates** to the financial interest or wellbeing of one of your Other Registerable Interests (as set out in **Table 2**), you must disclose the interest. You may speak on the matter only if members of the public are also allowed to speak at the meeting but otherwise must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest.

Disclosure of Non-Registerable Interests

6. Where a matter arises at a meeting which **directly relates** to your financial interest or well-being (and is not a Disclosable Pecuniary Interest set out in Table 1) or a financial interest or well-being of a relative or close associate, you must disclose the interest. You may speak on the matter only if members of the public are also allowed to speak at the meeting. Otherwise you must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation. If it is a 'sensitive interest', you do not have to disclose the nature of the interest.
7. Where a matter arises at a meeting which **affects** –
 - a. your own financial interest or well-being;
 - b. a financial interest or well-being of a relative or close associate; or
 - c. a financial interest or wellbeing of a body included under Other Registrable Interests as set out in **Table 2**

you must disclose the interest. In order to determine whether you can remain in the meeting after disclosing your interest the following test should be applied

8. Where a matter (referred to in paragraph 8 above) **affects** the financial interest or well-being:
 - a. to a greater extent than it affects the financial interests of the

majority of inhabitants of the ward affected by the decision
and;

- b. a reasonable member of the public knowing all the facts would believe that it would affect your view of the wider public interest

You may speak on the matter only if members of the public are also allowed to speak at the meeting. Otherwise you must not take part in any discussion or vote on the matter and must not remain in the room unless you have been granted a dispensation.

Dorset & Wiltshire Fire and Rescue Authority

Member Development

Member Development

1 Introduction

- 1.1 The Authority's Member Development arrangements provide opportunities to further support Members in their fundamental role in shaping and delivering fire and rescue services across the area covered by the Authority.
- 1.2 It is a personalised opportunity for individual Members to raise any specific areas of clarity; additional support; or thoughts about strengthening the workings of the Authority.
- 1.3 The arrangements are complementary to Member roles in respective local Authorities and will be both an individual and collective experience.
- 1.4 Where appropriate, development will be individually targeted to Members who have so requested, but where it is beneficial to do so, these needs may influence the content of wider seminars or training events.

2 Member Induction

- 2.1 All new Members to the Authority will be offered core induction development specific to their role. Thereafter induction is tailored according to the committees and groups on which they serve. The induction will include the following:
 - Duties under the Fire and Rescue Service Act 2004
 - Composition, powers and duties of committees
 - Standing Orders, procurement rules, financial regulations & delegations
 - Member/Officer protocol
 - Code of conduct

3 Member development meetings

- 3.1 Every two years all Members should attend a development meeting, held on an individual basis.
- 3.2 Member development meetings are not aligned to any form of appraisal or performance process and is not a test.
- 3.3 Member development meetings are an informal conversation, providing an opportunity for Members to meet individually and in confidence, with the Members Group Leader or the Chair and a representative of the Strategic Leadership Team to raise any issues of concern; areas where further clarity might be discussed; or areas of personal development.

Dorset & Wiltshire Fire and Rescue Authority

Member Development

3.4 The conversation at the meeting may be framed by questions aligned to the Chartered Institute of Public Finance and Accountancy (CIPFA) Good Governance Standard for Public Services, which the Authority has agreed to follow.

3.5 Typical questions to help guide the informal conversation might include:

Are there specific areas where you would like to provide more information; or have better support; or an improved approach towards:

- *what the Service is trying to achieve or the values that it has adopted*
- *the workings of the Authority or role and responsibilities of Members and Senior Officers*
- *the code of conduct and the Member/Officer protocol*
- *the sufficiency of information provided to enable Members to make informed decisions and manage risk*
- *the effectiveness of communications with Members and with the public*
- *support in partnership working*
- *the value of seminars and learning events provided and suggestions for future seminars*
- *any other particular areas of frustration or improvement to support your role*
- *any personal development ambitions*

3.6 In order to capture the key points and actions, a brief note will be agreed with each Member and kept confidential. This note will be used to reflect development needs and ensure progress has been made for addressing these needs.

3.7 The Clerk will develop a consolidated action plan and seminar schedule that seeks to address common themes, which will be formally discussed at the Finance & Audit Committee. In this way a more efficient process of Authority wide learning may take place.

4 Additional Member Development Opportunities

4.1 From time to time Members are encouraged to attend and observe the other committees and working groups that ordinarily they are not members of.

4.2 Specific training or awareness

4.2.1 Committee Chairs will consider the development needs of new and existing Members and, where appropriate, hold specific training events for the

Dorset & Wiltshire Fire and Rescue Authority

committees for which they are responsible to steer, providing Members with training specific to their role.

- 4.2.2 These events will be put on by the Service or their constituent Authorities through external meetings, seminar and conference attendance. In some cases this is a requirement of the Authority (e.g. Appeals) and in other cases, is a demonstration of good governance.
- 4.2.3 Where role appropriate conferences/seminars are identified, Members can request attendance via the Democratic Services Manager who, in consultation with the Chair will confirm approval.

4.3 ***Seminars and workshops***

4.3.1 In certain circumstances, it is necessary to include items of specific interest within the annual seminar schedule. These may be in response to changing pressures or expectations and can include:

- National policy changes specific to public services
- Local issues associated to key partners
- Legislative change specifically aimed at the Fire and Rescue Service
- Awareness raising of key consultation issues
- Emerging issues identified within the strategic assessment

4.3.2 Where appropriate, relevant partners are invited and encouraged to attend development seminars to both learn from and contribute to the discussions.

5 **Training and Development records**

5.1 The Service's Democratic Services Manager will capture, and hold centrally, a record of training and development undertaken individually for each Member of the Authority.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

Member - Officer Protocol

1. Introduction

- 1.1 An effective and professional relationship between Members and Officers in which both understand the other's role is essential to the success of the Dorset & Wiltshire Fire and Rescue Authority (the Authority). The purpose of this Protocol is to assist by giving guidance on that relationship so as to ensure the smooth running of the Authority.
- 1.2 The Protocol has been approved by the Authority which will review it as part of a wider review of governance arrangements.
- 1.3 This Protocol is not prescriptive, and it does not cover every situation. The intention is to give guidance on some of the issues which most commonly arise. It is hoped that the approach adopted will serve as a guide to dealing with other issues and will be a useful reference point in maintaining and promoting high standards of conduct.
- 1.4 Members and Officers must at all times observe this Protocol.
- 1.5 There are approved codes of conduct for both Members and Officers. The Members' code requires Members to have regard to the principles of selflessness, integrity, objectivity, accountability, openness, honesty and leadership. Breaches of this protocol by a Member may result in a complaint if it appears the Members' code of conduct has also been breached. Breaches by an Officer may lead to disciplinary action.

2. Definitions

- 2.1 Unless the context indicates otherwise, references to the term *Authority* include committees, panels and joint committees.
- 2.2 The terms *Member* and *Members* include co-opted members, unless the context indicates otherwise.
- 2.3 *Officers* and *staff* mean all persons in the employment of the Authority and the Dorset & Wiltshire Fire and Rescue Service (the Service).
- 2.4 *Senior Officer* means the Chief Fire Officer, the Clerk and the Monitoring Officer, Treasurer, together with those Officers comprising the Strategic Leadership Team.
- 2.5 The term *constituent authorities* mean the local authorities which have the right to appoint members to the Authority.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

3. The Role of Members and Officers

- 3.1 This Protocol seeks to reflect the principles underlying the respective codes of conduct which apply to Members and Officers. The shared objective of these codes is to enhance and maintain the integrity of local government and they therefore demand very high standards of personal conduct.
- 3.2 The conduct of Members and Officers should be such as to instill mutual confidence, trust and respect. Dealings between Members and Officers should observe high standards of courtesy. Neither party should seek to take unfair advantage of their position. Members should not do anything which compromises, or is likely to compromise, the impartiality of Officers.
- 3.3 Whilst Members and Officers are indispensable to one another, their responsibilities are distinct. Through their membership of the constituent authorities, Members are accountable to the electorate and can serve only as long as their term of office lasts in their constituent authority. The role of Members includes developing and setting policies that will then be implemented by Officers and monitor how those policies are implemented.
- 3.4 Officers are responsible for giving advice to Members to enable them to fulfil their roles. In doing so, Officers will take into account all available relevant factors. Informal and collaborative two-way contact between Members and Officers is encouraged but close personal familiarity can damage the relationship, as might a family or business connection.
- 3.5 Members and Officers should inform the Clerk of any relationship which might be seen as unduly influencing their work in their respective roles.
- 3.6 It is not enough to avoid actual impropriety. Members and Officers should always be open about their relationships to avoid any reason for suspicion and any appearance of improper conduct. Where a close personal relationship has been disclosed, those concerned should avoid a situation where conflict could be perceived. Specifically, a Member should not sit on a body or participate in any decision which directly affects the Officer on a personal basis.
- 3.7 Officers serve the Authority as a whole. They have a duty to advise Members collectively and individually and implement the properly authorised decisions of the Authority. Senior Officers in particular will be responsible for instructing staff to implement the Authority's decisions.
- 3.8 Officers taking decisions under their delegated powers must consider the advisability of informing the Authority of their intentions in advance when the matter to which the decisions relates is likely to be sensitive or contentious or has wider policy implications.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

- 3.9 In any event, Senior Officers will establish regular informal contact at mutually convenient times with the Chair and Vice-Chair and with the workstreams as a means of Officers briefing Members on sensitive or otherwise important issues, and vice versa.
- 3.10 Officers work to the instructions of their Senior Officers, not individual Members. It follows that, whilst such Officers will always seek to assist a Member, they must not be asked to exceed the bounds of authority they have been given by their managers. Except when the purpose of an enquiry is purely to seek factual information, Members should normally direct their requests and concerns to a Senior Officer, at least in the first instance.
- 3.11 At a meeting of the Authority, a resolution may be passed which authorises a named Officer to take action between meetings in consultation with the Chair. In these circumstances it is the Officer, not the Chair, who takes the action and is responsible for it. The Chair has no legal power to take decisions on behalf of the Authority.
- 3.12 Members and Officers should respect each other's free (i.e., non-Authority) time.

4. Dual Role

- 4.1 As councillors, Members may express the values and aspirations of the party political groups to which they belong, recognising that in their role as Members they have a duty always to act in the public interest.
- 4.2 Similarly, Members may express the values and aspirations of the constituent authorities, though they are not delegates and cannot be mandated by those authorities.
- 4.3 Members have a number of roles: collectively, they are the ultimate policy-makers determining the core values of the Authority and approving its budget and strategic plans. They also monitor service delivery against approved plans and targets.
- 4.4 Members represent their community and promote the social, economic and environmental well-being of the community often in partnership with other agencies.
- 4.5 Members concerned about a possible conflict of interest should always take advice from the Clerk.

5. The Authority as an Employer

- 5.1 Officers are employed by the Authority as a whole.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

- 5.2 Members' roles in relation to the Authority as an employer are limited to:
- ◆ the appointment of specified senior posts
 - ◆ determining human resources policies and conditions of employment, and
 - ◆ hearing and determining appeals.

Members shall not act outside these roles.

- 5.3 If participating in the appointment of Officers, Members should:
- ◆ remember that the sole criterion is merit
 - ◆ never canvass support for a particular candidate
 - ◆ not take part where one of the candidates is a close friend or relative
 - ◆ not be influenced by personal preferences, and
 - ◆ not favour a candidate by giving them information not available to the other candidates.

- 5.4 A Member should not sit on an appeal hearing if the appellant is a friend, a relative, or an Officer with whom the Member has had a close working relationship.

6. Officer/Chair/Lead Member Relationships

- 6.1 The Chief Fire Officer, Treasurer, Monitoring Officer and Clerk will always be fully responsible for the contents of any report submitted in their names. Even if the Chair or Lead Member is unhappy with its contents, a report should never be amended other than with the approval of the relevant responsible Officer.

- 6.2 It is important to remember that the law only allows for decisions on Fire & Rescue Authority business to be taken by the Authority itself, a Committee or an Officer with delegated powers. The law does not allow for decisions to be taken by individual members of the Authority or party groups.

- 6.3 Members must not take any actions which are unlawful, financially improper or likely to give rise to maladministration.

- 6.4 Members are not authorised to initiate or certify financial transactions, or to enter into a contract on behalf of the Authority.

- 6.5 Members are not authorised to instruct Officers other than:
- ◆ through the formal decision-making process
 - ◆ to request the provision of consumable resources provided by the Authority for Members' use; or
 - ◆ where staff have been specifically allocated to give support to a Member or group of Members.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

- 6.6 Within the approved plans and policies of the Authority (including as appropriate, the committees, panels and joint committees), Officers manage and provide the services for which the Authority has a statutory duty within the framework of responsibilities delegated to them. Specifically, the Chief Fire Officer is responsible for all operational issues and for the management of all resources including staff.
- 6.7 Officers have a duty to implement decisions of the Authority which are lawful, and which have been properly approved in accordance with the requirements of the law and the Authority's Standing Orders, Financial Regulations, etc, and duly minuted.
- 6.8 Officers have a contractual and legal duty to be impartial. They must not allow their professional judgement and advice to be influenced by their own personal views.
- 6.9 Officers must be alert to issues which are, or are likely to be, contentious or politically sensitive, and be aware of the implications for Members, the media or other sections of the public.

7. Officer Advice to Party Groups

- 7.1 It must be recognised that Officers serve the whole Authority and not exclusively any one political group, combination of groups or individual Member.
- 7.2 Party group meetings are not empowered to make decisions on behalf of the Authority, and conclusions reached at such meetings do not rank as formal decisions. The presence of an Officer confers no formal status on such meetings in terms of Authority business and must not be interpreted as doing so.
- 7.3 In their dealings with party groups, Officers must treat each group in a fair and even handed manner. Senior Officers may properly be asked to contribute to deliberations of matters concerning Authority business by party groups, whether meeting separately or jointly.
- 7.4 Officers have the right to refuse such requests and will normally not attend a meeting of a party group where some of those attending are not members of the Authority.
- 7.5 An Officer, who is not a Senior Officer, shall not be invited to attend a party group meeting, but a Senior Officer may nominate another Officer to attend on their behalf.
- 7.6 An Officer should be given the opportunity of verifying comments and advice attributed to them in any written record of a party group meeting.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

7.7 Certain key points must be clearly understood by Members and Officers when advice is being given to a political group:

- ◆ Officers must not be involved in advising on party business
- ◆ Party group meetings are not empowered to make decisions on behalf of the Authority
- ◆ Advising a group meeting is not a substitute for providing all necessary information and advice to the Authority or relevant committee
- ◆ Officers must not attend group meetings where those involved include persons who are not members of the Authority (such persons are not bound by the Member code of conduct, in particular as to confidentiality)
- ◆ Officers must respect party group confidentiality and not repeat the content of any discussion to any other party group.

7.8 Any particular cases of difficulty or uncertainty in relation to this part of the protocol should be raised with the Clerk and the relevant party group leader.

8. Resources for Members

8.1 The only basis upon which the Authority may lawfully provide resources by way of support services (e.g., stationery and photocopying) to Members is to assist them in discharging their role as Members of the Authority, as set out in any Member Role Profile or Job Description. Such support should not be used to support Members in their roles as Members of other authorities and bodies. They should never be used in connection with party political or campaigning activity, or for private purposes.

8.2 Members should ensure they understand and comply with the Authority's own rules about the use of such resources, particularly:

- ◆ in relation to any locally agreed arrangements, e.g., payment for private photocopying; and
- ◆ regarding ICT security.

9. Members' Access to Information

9.1 Members are free to approach the Authority to provide them with such information, explanation and advice as they may reasonably need to assist them in discharging their role as Members of the Authority. Such approaches should normally be directed to the appropriate Senior Officer or, in cases of doubt, to the Chief Fire Officer. Members should not put undue pressure on Officers to release information and documents to which they are not entitled to have access.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

- 9.2 Where information is requested on behalf of a third party, it will only be provided if:
- ◆ it is in the public domain, and
 - ◆ it is not barred by the General Data Protection Regulation or the Freedom of Information Act 2000 from being given.
- 9.3 Every Member of a committee, panel or joint committee has a right to inspect documents about the business of that committee, panel or joint committee. A Member who is not a Member of a specific committee, panel or joint committee, may have access to any document about the business of that specific part of the Authority provided:
- ◆ they can demonstrate a reasonable need to see the documents in order to carry out their role as a Member (the “need to know” principle), and
 - ◆ the documents do not contain “confidential” or “exempt” information as defined by the law.
- 9.4 Disputes as to the validity of a Member’s request to see a document on a need to know basis will be determined by the Clerk. Officers should seek their advice if in any doubt about the reasonableness of a Member’s request.
- 9.5 A Member should obtain advice from the Clerk in circumstances where their wishes to have access to documents or information:
- ◆ where to do so is likely to be in breach of the General Data Protection Regulation or
 - ◆ where the subject matter is one in which they have a disclosable pecuniary or other interest as defined in the Members’ Code of Conduct.

10. Access to Premises

- 10.1 Officers have the right to enter Authority land and premises to carry out their work. Some Officers have the legal power to enter property in the ownership of others.
- 10.2 Members have a right of access to Authority land and premises to fulfil their duties.
- 10.3 When making visits as individual Members, Members should:
- ◆ whenever practicable, notify and make advance arrangements with the appropriate manager or Officer in charge
 - ◆ comply with health and safety, security and other workplace rules; and
 - ◆ not interfere with the services or activities being provided at the time of the visit.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

11. Correspondence

- 11.1 Correspondence between an individual Member and an Officer should not be copied to another Member unless the author expressly intends and states that this is the case or consents. Where correspondence is copied, this should always be made explicit, i.e., there should be no 'blind' copies.
- 11.2 Official letters written on behalf of the Authority should normally be in the name of the relevant Officer, however, the Chair may initiate correspondence in their own name.
- 11.3 Letters which convene meetings, create obligations or give instructions on behalf of the Authority should never be sent in the name of a Member.

12. Public Relations and Press Releases

- 12.1 All formal relations with the media must be conducted in accordance with the Authority's agreed procedures and the law on local authority publicity.
- 12.2. Press releases or statements made by Officers must promote or give information on Authority policy or services. They will be factual and consistent with Authority policy. They cannot be used to promote a party group.
- 12.3 Officers will keep relevant Members informed of media interest in the Authority's activities, especially regarding strategic or contentious matters.
- 12.4 Before responding to enquiries from the media, Officers shall ensure they are authorised to do so.
- 12.5 If a Member is contacted by, or contacts, the media on an issue, they should:
 - ◆ indicate in what capacity they are speaking (e.g., in a personal capacity, on behalf of the Authority, or on behalf of a party group)
 - ◆ be sure of what they want to say or not to say
 - ◆ consider the likely consequences for the Authority of their statement (e.g., commitment to a particular course of action, image, allegations of jumping to conclusions)
 - ◆ notify the press office of any press engagement
 - ◆ never give a commitment in relation to matters which may be subject to claims from third parties and/or are likely to be an insurance matter
 - ◆ consider whether to consult other relevant members; and
 - ◆ take particular care in what they say in the run-up to local or national elections to avoid giving the impression of electioneering, unless they have been contacted as an election candidate or political party activist.

Dorset & Wiltshire Fire and Rescue Authority

Member - Officer Protocol

13. Adherence to this Protocol

- 13.1 The key elements of this protocol are recognition of and a respect for each other's roles and responsibilities. These should be reflected in the behaviour and attitude of each to the other, both publicly and privately.
- 13.2 A Member who is unhappy about the actions taken by, or conduct of, an Officer should:
- ◆ avoid personal attacks on, or abuse of, the Officer at all times
 - ◆ ensure that any criticism is well founded and constructive
 - ◆ never make a criticism in public, and
 - ◆ take up the concern with the Officer privately.
- 13.3 If direct discussion with the Officer is inappropriate (e.g., because of the seriousness of the concern) or fails to resolve the matter, the Member should raise the issue with the Officer's manager or the relevant Senior Officer.
- 13.4 Members or Officers with questions about the implementation or interpretation of any part of this protocol should seek the guidance of the Clerk.
- 13.5 An Officer who believes a Member may have acted other than in accordance with this protocol should raise their concern with the Clerk. The Clerk is the Officer responsible for the operation of this protocol and they will consider how the complaint or allegation should be dealt with by the Clerk or the Monitoring Officer as necessary.
- 13.6 Officers with complaints of alleged unethical conduct by Members should, through their line manager, refer such matters to the Chief Fire Officer. The Chief Fire Officer will raise such matters with the Clerk.

Dorset & Wiltshire Fire and Rescue Authority

Financial Regulations

Introduction and Overview

1. Status of financial regulations

What are financial regulations?

These regulations identify the financial responsibilities of Dorset and Wiltshire Fire and Rescue Authority (the Authority), its Committees, the Chief Fire Officer, the Monitoring Officer, the Treasurer and other officers.

Who should read this document?

The regulations and procedures apply to all staff and Members of the Authority. The prime audience for financial regulations consist of:

- ◆ Members
- ◆ Chief Fire Officer
- ◆ Finance Officers
- ◆ Staff with financial responsibilities

More detailed guidance on how the regulations should be implemented in practice is contained in financial procedures, which apply to all Members and all staff.

Why have financial regulations?

Financial regulations form part of the means by which the Authority manages its business. They clarify responsibilities and provide a framework for decision making. Where there are specific statutory powers and duties, the financial regulations seek to ensure that these are duly complied with, as well as setting out best professional practices and processes for all activities and decisions of the Authority, its committees and the Service. Members and officers are required to maintain a written record of any decision-making that has been delegated to members of their staff, including seconded staff. When decisions have been delegated or been devolved to other bodies or responsible officers, references to Members or officers in the regulations should be read as referring to them.

In summary the financial regulations are the regulatory framework within which the financial affairs of the Authority operate.

Corporate governance and financial regulations

All staff and Members must comply with the three fundamental principles of public life, namely openness, integrity and accountability. These regulations reinforce the corporate governance standards governing organisational structures, financial reporting and internal controls and standards of behaviour. The Treasurer is responsible for reporting, where appropriate, breaches of the financial regulations to the Authority. They are also responsible for issuing advice and guidance to underpin the financial regulations that Members, officers and others acting on behalf of the Authority are required to follow.

- 2.4 "Contract" shall mean any agreement for the supply/disposal of goods, materials or services and the execution of works.
- 2.5 "Contractor" shall mean any person, company or other organisation that is engaged to provide goods, materials, services or works to the Authority.
- 2.6 “Dorset & Wiltshire Fire and Rescue Authority”, (“the Authority”) is the Authority constituted in accordance with Statutory Instrument 2015 No. 435 - The Dorset & Wiltshire Fire and Rescue Authority (Combination Scheme) Order 2015. The membership of the Authority was varied (with effect from 6 June 2018) by the Fire and Rescue Authority (Membership) Order 2017 (Statutory Instrument 1165).
- 2.7 “Member” shall mean a person appointed to be a Member, or co-opted Member of the Authority by the constituent authorities.
- 2.8 “Officer” shall mean all persons appointed by the Authority, including uniformed and non-uniformed staff.
- 2.9 “UK Procurement Threshold(s)” shall mean the thresholds that apply to the public advertisement of goods, works or service contracts
- 2.10 “Treasurer” - the person appointed by the Authority with responsibility for the administration of the Authority’s financial affairs, in accordance with Section 151 of the Local Government Act 1972 and Section 112 of the Local Government Finance Act 1988. Treasurer shall include such persons as the Treasurer specifically authorises in writing for the purpose of these Regulations.
- 2.11 “Regulations and legislation – shall mean the Procurement Act 2023 and the Procurement Regulations 2024 as well as any other relevant legislation.

3. Changes to contract standing orders

- 3.1 Any changes to Contract Standing Orders shall be drawn up jointly by the Chief Fire Officer, Treasurer and Clerk and be approved by the Authority.

4. Suspension of contract standing orders

- 4.1 If the Chief Fire Officer is of the opinion that any of these Regulations are inappropriate in particular circumstances the Clerk shall be informed in writing. The Clerk may, after consultation with the

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

Treasurer and Monitoring Officer, authorise departure from these Regulations if satisfied that, exceptionally, such departure is in the interests of the Authority. The Clerk shall maintain a register of any such authorisations, which shall be available for inspection by any Member of the Authority and will report such departures to the Authority.

Contract Standing Orders

5. Compliance with the law

- 5.1 All contracts, and the procedures for entering into them, shall comply with Procurement Act 2023 and the Procurement Regulations 2024 and other relevant legislation which is enforced and impacts our procurement processes and procedures. In the event of any conflict between these standing orders and the law, the law shall prevail.
- 5.2 Where a procurement was started under the Public Contract Regulations (2015) governance for that procurement or contract continues to be those Regulations rather than the Procurement Act (2023) until either the end of the contract in question, or for a framework/DPS, the end of the last call off contract.
- 5.3 Buyers can enter into any contract under these Contract Standing Orders, but we must have regard for:
- a) delivering value for money
 - b) maximising public benefits
 - c) sharing information for allowing suppliers and others to understand the Authority procurement policies and decisions
 - d) acting, and being seen to act, with integrity (acting transparently, fairly and proportionately);
 - e) small and medium enterprises (SMEs)
 - f) treating suppliers the same
 - g) not putting a supplier at an unfair disadvantage or advantage
 - h) the policy objectives set out in the National Procurement Policy Statement (NPSS):
- 5.4 Buyers must have regard to any legal advice on the form and content of the contract from the Monitoring Officer or other legal adviser.

6. Contracts to be in writing

- 6.1 All contracts shall be in writing. All relevant contracts over £50,000.00 should be in writing in a form agreed by the Procurement Manager or designated officer. Contract term and conditions: procurement and contract procedures stipulate use of the following forms of contract:
- 6.2 The Authority's Standard Terms and Conditions or equivalent, or those issued by a relevant professional body (e.g. Joint Contracts Tribunal), must be used where possible.

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

- 6.3 Exemptions do not apply to contracts with a value up to £25,000 including VAT or £30,000.00 excluding VAT as the only requirement is to obtain one quote, however this does not mean you should only request one quote.
- 6.4 Contracts between £25,001 including VAT or £30,001 excluding VAT and the regulated threshold: You may seek an exemption to undertake a procurement procedure other than that advised by Procurement Lead, including making a direct award, where you are able to provide a sound reason and evidence for doing so, for example where:
- the proposed contract is of a very specialist nature and there is a genuine supplier monopoly situation;
 - the proposed contract is needed urgently, the urgency is not brought about by events foreseeable by or attributable to the Authority and where the situation would result in risk of harm to individuals or loss or damage to the Authority; or
 - it would be in the best interests of the Authority or local people not to undertake the applicable procedure.
- 6.5 Above regulated threshold contracts: There is scope within the Regulations to make a direct award in cases where the justification set out in the Regulations applies to your proposed contract.
- the production of a prototype or supply of other novel (designed at the request of the Authority) services for the sole purpose of testing, research, study or development.
 - the creation or acquisition of a unique work of art or artistic performance.
 - a particular supplier having the intellectual property rights or other exclusive rights meaning only the supplier can supply the goods, services or works.
 - there is an absence of competition for technical reasons which means only a particular supplier can supply the goods, services or works and there is no reasonable alternative to those goods, services or works.
 - the supply of goods, services or works by an existing supplier, which are intended as an extension to or partial replacement of existing goods, services or works where a change in supplier will result in something that is different from or incompatible with.
 - the existing goods, services or works, resulting in disproportionate technical difficulties in operation or maintenance.
 - the supply of goods, services or works by the supplier that are similar to existing goods, services or works where the existing goods, services or works were supplied under a compliantly tendered contract within the past 5 years and the earlier contract set out the Authority's intention to carry out a later procurement.
 - the award of a contract to a particular supplier on terms particularly advantageous to the Authority because a supplier (whether or not it is the

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

one the contract is being awarded to) is undergoing insolvency proceedings.

- the goods, services or works are strictly necessary for reasons of extreme and unavoidable urgency, not attributable to or capable of being foreseen by the Authority, and the contract cannot be awarded through a competitive tendering process.

6.6 Under the Regulations and Contract Procedures the direct award of a contract on the grounds of urgency applies only where the situation giving rise to the urgency is not attributable to and/or could not have been foreseen by the Authority.

6.7 Where a genuine urgent situation occurs we can put contracts in place without the need for a procurement process. However, the contract can only be awarded for the duration necessary to address the immediate emergency. For example, during the COVID pandemic any contracts in relation to our immediate response to the crisis should have been for the length of time needed for us to then properly procure the requirement, i.e. the point at which the need became foreseeable.

6.8 If we are aware of the potential for a situation to occur which we will need to put a contract in place for, regardless of the likelihood of the situation arising or when it may arise, the need for the contract is foreseeable. Where this is the case advice should be sought from Procurement Team as soon as the potential need is identified.

7. Direct Award Process

7.1 Direct award is when a public contract is awarded without a competitive tendering procedure and the public contract is placed directly with the supplier of the Authority's choosing. The justification for a direct award for above threshold procurement is set out below:

- Prototypes and development
- Single suppliers
- Additional or repeat goods or services or works
- Commodities
- Advantageous terms on insolvency
- Urgency
- User choice contracts
- Defence and security

8. Conflicts of Interest

8.1 The Authority has a legal duty under the Act and the PCR (previous regime) to identify (take all reasonable steps to identify, and keep under review, any conflicts of interest or potential conflicts of interest) and mitigate (must take all

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

reasonable steps to ensure a conflict of interest does not put a supplier at an unfair advantage or disadvantage in relation to the procurement and award of a public contract) conflicts of interest. It is also a requirement of Contract Procedures for all external spend. Processes are in place to assess at pre-market engagement stage, procurement process stage and contract management stage.

9. Use of External Consultant or Agent to undertake a procurement process:

9.1 The external Consultant or Agent must have an understanding of public procurement and the Act. The Procurement Manager or Senior Procurement Officer must be consulted initially.

10. Market research

10.1 Involves collecting, analysing and interpreting data about your requirement to enable you to understand the size, location and capability of market supplying that requirement, for example, but not limited to: internet research, Contract notices and contract award notices published by other contracting authorities who have recently tendered for a similar requirement may be considered. The authority may then be contacted to find out the level of response they had from the market.

11. Preliminary market engagement

11.1 This is a more detailed engagement with suppliers, including those identified at the market research stage, about the specific requirements and proposed procurement. Regardless of the value of the contract it is essential that any preliminary market engagement is undertaken in a fair and transparent manner. Involvement and advice must always be sought from the Procurement department before commencing any form of preliminary market engagement and a record of all activity must be kept for auditing purposes.

12. Tender Clarification (post-submission)

12.1 The Authority reserves the right (but is not obliged) to seek clarification of any aspect of a Tenderer's Tender during the evaluation phase where necessary for the purposes of carrying out a fair evaluation. Tenderers are asked to respond to such requests promptly. Vague or ambiguous answers are likely to score poorly or render the Tender non-compliant.

13. Post-Award Clarification

13.1 Prior to Contract Award, the Tenderer who achieved the highest score in the tender evaluation may be required to attend a Post-Award Clarification Meeting. The purpose of this meeting is to ensure there is a clear mutual understanding between the Authority and the Tenderer regarding the

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

requirements of the Contract prior to Contract Award. It is important to note that this will not be a negotiation meeting or an opportunity to present new information (unless requested by the Authority).

14. Conformity with financial regulations

- 14.1 No contract shall be entered into unless the expenditure involved may be properly incurred under the Authority's Financial Regulations in force for the time being.

15. Personal and prejudicial interests of Members

- 15.1 If any Member of the Authority or a Committee has a disclosable and pecuniary interest, as defined in the Code of Conduct for Members, arising from any contract, proposed contract or other matter and is present at a meeting of the Authority, or a Committee at which the contract or other matter is the subject of consideration, then the Member must act in accordance with the requirements of the Code of Conduct. This means that a Member with a pecuniary interest must disclose to the meeting the existence and the nature of that interest when consideration of that business begins, or when the interest becomes apparent.
- 15.2 If the pecuniary interest is also a prejudicial one, then the Member must withdraw from the room in which the meeting is being held, not exercise any functions in relation to that contract and not seek improperly to influence a decision about the contract. A Member with a disclosable pecuniary interest should only remain and take part to the extent of any dispensation granted by the Clerk, after consultation with the Chair.
- 15.3 These obligations extend to consultants employed to act for the Authority.

16. Interests of officers in contracts

- 16.1 The Clerk shall maintain a record of any notice given by an officer of any interest in a contract and the record shall be available for inspection by any Member of the Authority. The procurement and contract procedures issued by the Treasurer include guidance on how conflicts of interest should be managed by officers.

17. Compliance

- 17.1 It is an implied condition of employment of all staff of the Authority involved in the letting of contracts that they shall at all times observe the provisions of these Standing Orders and the procurement and contract procedures issued by the Treasurer.
- 17.2 Failure to comply with Contract Standing Orders or the instructions issued under them will constitute misconduct.

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

18. Land and property

- 18.1 In relation to these Procedure Rules:
- 18.1.1 Land has the meaning provided in Section 205 of the Law of Property Act 1925. In particular, but without in any way limiting that meaning, land includes buildings and easements.
- 18.1.2 Any purchase, lease or sale of property that involves a receipt or payment exceeding £100,000 must be given the prior approval of the Authority, subject to any purchase, lease or sale of property below £100,000 being reported to the next meeting of the Authority following completion.
- 18.1.3 References to the acquisition of land include the acceptance of gifts of land and the taking of leases, licenses and easements of or over any land (including buildings) whether by way of valuable consideration or exchange but not the appropriation of land.
- 18.2 Contract Procedure Rules 1 to 11 inclusive and Contract Procedure Rule 16 and 17 shall apply to contracts for the sale and purchase of interests in land.
- 18.3 In all other respects, arrangements for the sale and purchase of interests in land and property shall be undertaken by a suitably qualified and experienced person and comply with procedures approved by the Authority.
- 18.4 The Authority shall only acquire land after having first considered a suitably qualified and experienced person's estimate of the value of the land in question and any recommendation made as to the maximum sum appropriate for such acquisition; and even then, for a sum no greater than the maximum recommended.
- 18.5 Disposal of land shall be for the best price reasonably obtainable unless the Authority resolve specifically to the contrary.

19. Contract value and principles

- 19.1 As a general principle the value of a contract shall be deemed to be the total of all payments made to the contractor in respect of that contract regardless of the period of time over which those payments are made. In the case of recurrent transactions for the same type of item the contract value will be the aggregate total of transactions (including VAT) over the life of the contract, not the aggregate value in a single year (unless this is the period of the contract) and not the value of a single transaction.
- 19.2 If the contract value cannot be reliably estimated prior to the contract being tendered then the above threshold procedure must be followed to award the contract.

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

- 19.3 The Authority may decide to require the Chief Fire Officer to advise them in advance over certain contracts because of their sensitivity or size.
- 19.4 All contracts subject to the procedure set out in section 16 and 17 below must be included in the Register of Contracts maintained by the Procurement Manager.
- 19.5 All relevant contracts must refer to the Authority's Whistleblowing policy and Freedom of Information requirements.

20. Extensions to existing contracts

- 20.1 Buyers may only extend an existing contract if there is provision in the procurement documents or tender to do this.

21. Pre-tender market research and consultation

- 21.1 It is possible to review the market for a proposed purchase by discussion with suppliers (note the difference between pre-tender market research and pre-market engagement) and other research but must not:

- ◆ base any specification on one supplier's offering such as to distort competition
- ◆ make any indication or commitment to suppliers that their offering may be preferred
- ◆ suggest any procurement route which is not consistent with these orders; or
- ◆ enter into negotiations about price where a competitive procurement process has yet to take place.
- ◆ give any one potential supplier an advantage in bidding over another
- ◆ as a result of pre-procurement dialogue shape requirements in favour of any one particular potential supplier.
- ◆ engage in a way that disadvantages any one particular potential supplier or group of potential suppliers

22. Procedure for contracts for which no formal tendering exercise is required

- 22.1 For contracts expected to be below £30,000.00 (excluding VAT), buyers have discretion as to the method to be used for seeking a price and entering into a contract, and may obtain goods from any supplier, subject to the Services' procurement and contract procedures issued by the Treasurer, but must be able to demonstrate that all actions were reasonable, and in the best interests of the Authority, and were not improperly influenced, and that best value has been obtained, as judged on price, quality, and compliance with legislation.

23. Procedure for contracts which do require a formal tendering exercise

- 23.1 If the estimated or actual annual or total value of a contract exceeds £50,000.00 (excluding VAT) buyers must, before entering into a contract seek the advice of the Procurement Manager or designated officer.

Dorset & Wiltshire Fire and Rescue Authority
Contract and Procurement Standing Orders

- 23.2 The remainder of this section describes the formal procedure for entering into a contract and is compulsory for contracts expected to exceed £50,000.00. The Threshold refers to the value of a contract for that contract's total duration.
- 23.3 Where applicable, a contract notice shall be published on the Central Digital Platform via the Authority's e-Tendering Portal. The notice shall describe the object of the contract, state the latest date and time for the receipt of tenders, the award criteria and invite other submissions expressing interest in tendering where a pre-qualification process is proposed or applications for tender forms where an open tender process is proposed. It shall comply with any relevant UK Regulations. Following publication, further public notice can be given in appropriate media, including local and other newspapers or journals, which, in the opinion of the Chief Fire Officer, are most suitable for publicising the invitation to tender and also on the Authority's website.
- 23.4 Unless a corporate contract/framework is in place, tenders shall be invited. If a procurement process has been undertaken for an approved list, this list can be used to call off.
- 23.5 Where the value of a contract is estimated to exceed a relevant UK Procurement Threshold, then tendering procedures shall be in accordance with the Regulations or statutory provision. These Thresholds are externally determined every two years and are included in the procurement and contract procedures issued by the Treasurer.
- 23.6 All public contract notices and tender invitation notices will be processed through the Authority's e-tendering system or alternative approved e-tendering system.
- 23.7 The Chief Fire Officer shall ensure that the requirements of the National Procurement Policy Statement are complied with by giving consideration to economic, social and environmental well-being, as well as value for money, in relation to the procurement of services.
- 23.8 Where appropriate, the Authority's approved e-tendering system must be used for conducting the formal tender process for all procurements valued above £50,000, unless approval to do otherwise has been given by the Chief Fire Officer.

24. List of contractors

- 24.1 Where appropriate, and in line with legislative requirements, the Authority may procure and maintain lists of contractors who have the necessary skills, expertise and financial credibility required to provide goods, services, consultancy and works. These lists will be operated in accordance with the UK Regulations, seeking expressions from interested companies to be included on the lists. The lists are to be used to invite tenders or quotations, as appropriate,

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

in relation to opportunities for individual requirements for goods, services, consultancy or works.

- 24.2 The list shall be maintained by or under arrangements approved by the Clerk.
- 24.3 Where the Chief Fire Officer, Treasurer or Clerk (as appropriate) remove a name from the list, then the reasons for removal shall be recorded.
- 24.4 The list shall indicate in respect of a person or body whose name is included on it, the categories of contract, and the values or amounts in respect of those categories for which approval has been given.
- 24.5 The list shall be reviewed on an annual basis up until the expiry of the contract.
- 24.6 Contractors shall be entitled to apply to be included on the list at any time, whether or not an advertisement has recently been issued, and shall have their application dealt with promptly.

25. Submissions and opening of tenders

- 25.1 The Treasurer or an officer designated by the Treasurer is responsible for the receipt and opening of tenders, except where under agreement with the Treasurer, this is carried out on the Services behalf through a third party approved IT based electronic system/process.
- 25.2 Tenders submitted in accordance with this Rule shall remain in the custody of the Clerk until the time appointed for their opening.
- 25.3 Tender opening sessions should be arranged to suit the buyer's requirements, provided that sufficient notice is given, and must be conducted according to any procedure required and approved by the Clerk. Tenders shall be opened at one and the same time, in the presence of an officer designated by the Clerk and an officer designated by the Chief Fire Officer for the purpose. A record shall be maintained showing the number of tenders received and all tenders shall be kept for two years.
- 25.4 Late or otherwise invalid tenders must be opened to enable the contractor to be advised of the reason for disqualification. Any such tender shall not be considered unless it is the only tender which has been received at the time when it is opened, except where permitted by any procedures issued by the Clerk or by the Treasurer. In the case of contracts for the sale of land, those administering a tendering exercise must also have regard to the over-riding requirement of Section 123 of The Local Government Act 1972 to obtain the best price reasonably available which will require the investigation of a late tender, if it appears likely to provide the best consideration, and if no contract has yet been entered into.

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

26. Acceptance of tenders

- 26.1 A contract may be awarded by the Chief Fire Officer to the contractor whose tender is judged to provide the best value to the Authority.
- 26.2 The Chief Fire Officer may award a contract on the following basis:
- (a) The Chief Fire Officer may award a contract on the following basis: The best tender judged to provide the best value to the Authority on the basis of the application of an appropriate Tender Evaluation Model which has been approved in advance by the Chief Fire Officer before any tender is opened.
 - (b) The lowest tender if payment is to be made or the highest if payment is to be received, which meets the tender specification and/or performance targets and can demonstrate best value.
- 26.3 Advice should be sought from an officer designated by the Treasurer on the development and application of tender evaluation models or assessment summaries, which can assess tenders on the basis of price and quality.

27. Post-tender negotiation

27.1 Post-tender discussions

For the purposes of tender evaluation, contractors will be issued a clarification message on the portal. There are no discussions at this stage.

Post-tender negotiations

Post-tender negotiations are only possible where the competitive flexible procedure has been utilised and shall only be permitted with the express written approval of the Chief Fire Officer in respect of which the following procedures are applicable:

28. Alternative procurement provisions

- 28.1 On application from the Chief Fire Officer, the Clerk and the Treasurer may approve in writing from time to time alternative methods of tendering and procurement within the scope and purpose of these rules.
- 28.2 As an alternative to the provisions of sections 16 and 17, buyers may procure supplies and services through a framework agreement or through collaboration arrangements with others provided that the buyer can demonstrate that procurement through such an agreement or arrangement is the most advantageous way of procuring the supplies or services, or that there are special factors which justify such an agreement or arrangement.
- 28.3 Buyers procuring supplies or services under the provisions of this Regulation must

Dorset & Wiltshire Fire and Rescue Authority
Contract and Procurement Standing Orders

be satisfied that full, open and fair competition in respect of the creation of framework agreements or through collaboration arrangements.

29. Contract performance

- 29.1 Irrespective of value, contracts for building, engineering or other works shall always seek to safeguard due performance and in appropriate cases provide for liquidated damages to be paid by the contractor in the event of the contract not being duly performed.
- 29.2 During the life of a relevant contract, the officer or other person appointed for the purpose of contract monitoring and evaluation must monitor its operation in respect of:
- ◆ Performance
 - ◆ Compliance with specification and contract
 - ◆ Cost
 - ◆ Any best value requirements
 - ◆ User satisfaction and risk management
 - ◆ Conflicts of Interest Declaration, which is to be updated and assessed on a yearly basis
 - ◆ Contract Termination Notice, which is to be published on the expiry of each contract

30. Assignment or sub-letting

- 30.1 A clause shall, where appropriate, be inserted in every written contract for the execution of work or supplies or services, prohibiting the assigning or sub-letting of the contract without the previous written consent of the Chief Fire Officer.
- 30.2 Where under the terms of a contract a sub-contractor or supplier is to be nominated by the Authority to a main contractor, the Chief Fire Officer shall, wherever practical, comply with these rules as though the sub-contract were a contract with the Authority.

31. Compliance with standards

- 31.1 Where an appropriate International, European, UK Accreditation Service, British Standard specification, British Standard Code of Practice issued by the British Standards Institution or Public Authority Standard is current at the date of the tender, then unless there is, in the opinion of the Chief Fire Officer, good and sufficient reason to the contrary, every written contract shall require that all goods and materials used or supplied and all workmanship shall be in accordance with that standard. However, in accordance with UK Regulations, no contract shall require the indication of a particular trademark, patent, type or specific origin unless this is essential and is qualified by the words "or equivalent".

32. Fraud, bribery and Corruption and anti-competitive practice

- 32.1 Every contract shall provide that the Authority may cancel the contract and

Dorset & Wiltshire Fire and Rescue Authority

Contract and Procurement Standing Orders

recover from the contractor the amount of any loss resulting from such cancellation, if:

- ◆ the contractor shall have offered or given or agreed to give to any person any gift or consideration of any kind as an inducement or reward for doing or forbearing to do anything in relation to the contract or any other contract with the Authority, or for showing or forbearing to show favour or disfavour to any person in relation to the contract or any other contract with the Authority; or
- ◆ if the like acts shall have been done by any person employed by the contractor or any person employed by it or acting on its behalf (whether with or without the knowledge of the contractor); or
- ◆ if in relation to any contract with the Authority the contractor or any person employed by him or acting on his behalf shall have committed any offence under the Prevention of Corruption Acts 1889 to 1916, or shall have given any fee or reward the receipt of which is an offence under sub-section (2) of section 117 of the Local Government Act 1972.

32.2 Similarly, all tender and contract documents must contain the appropriate clause and a Collusive and Bona Fide Certificate requiring a signature from each contractor submitting a tender document that provides protection to the Authority and the right to terminate the contract and reclaim costs in the event of a contractor proven to have acted in an anti-competitive manner and/or have colluded with others in their tender or contract submission or proposal.

32.3 In contracting with suppliers and contractors, officers must comply with the Bribery Act 2010.

33. Amendments to contract procedure rules

33.1 Any amendments to these Contract Standing Orders are to be drawn up jointly by the Chief Fire Officer, Treasurer and Clerk and be approved by the Authority.

34. Financial thresholds

34.1 The Treasurer may amend the financial thresholds where required to reflect changes in national price indices, statutory provisions or guidance from other bodies. The latest thresholds will be available on request to the Treasurer by all Members of the Authority.

Dorset & Wiltshire Fire and Rescue Authority

Scheme of Delegation to Officers

Scheme of Delegation to Officers

1. Foreword

- 1.1 In order to be able to operate efficiently and effectively the Fire and Rescue Service (the Service) needs a scheme of delegation which where necessary enables decisions to be made quickly and by the right person without the need for referral through tiers of managers.
- 1.2 As in other types of local authority, combined Dorset & Wiltshire Fire and Rescue Authority (the Authority) decision-making takes place within a sometimes complex legal framework within which staff are accountable to Members appointed to the Authority by its four constituent councils.

2. Scheme of Delegation

- 2.1 In place of a scheme of delegation listing very specific things that the Chief Fire Officer, Clerk, Monitoring Officer and Treasurer are permitted to, and are permitted to authorise others to do on their behalf, this new scheme of delegation takes as its starting point:
- a presumption that officers have delegated authority to exercise functions and make decisions about the service areas for which they are responsible;
 - that senior managers will delegate functions and decision making to the most appropriate levels within their services so that staff are free to do their jobs without having to needlessly refer questions through tiers of management;
 - a requirement that all staff will operate within the overall policies approved by the Authority and the limitations described in this scheme of delegation.
- 2.2 Reviewing the scheme of delegation has also provided an opportunity to be clear about the respective roles of Members and officers. Through the introduction of local performance committees this has included defining the role of local performance committee Members as the representatives of their communities and the introduction of requirements on officers to engage and consult with local performance committees before exercising any delegated authority which would have particular local impact.

Dorset & Wiltshire Fire and Rescue Authority

Scheme of Delegation to Officers

3. How decisions are made

- 3.1 The Authority's decision-making arrangements operate in accordance with section 101 of the Local Government Act 1972 under which decisions are made:
- by the full Authority; or by a committee of the Authority; or
 - by an officer exercising delegated authority.
- 3.2 Unlike the constituent councils the Authority does not operate executive/Cabinet style decision-making arrangements. Instead, all decisions are made by the full Authority or by a committee or an officer acting on behalf of the Authority.
- 3.3 Although not an executive/Cabinet type arrangement the Authority has reserved to itself the responsibility for setting overall policy direction.
- 3.4 The decisions which the full Authority will make under law:
1. approval of the Community Safety Plan and any significant amendments to it or the Integrated Risk Management Programme (Communities Programme);
 2. approval of any significant reports and proposals issued for public consultation;
 3. approval of the annual budget and agreement as to the precept to give effect to the budget;
 4. approval of the Medium-Term Finance Plan;
 5. maintaining a comprehensive performance management system to ensure that the Authority's objectives are being met;
 6. Treasury management strategy and policies;
 7. approve and adopt the Members Handbook, which includes the Scheme of Delegation

4. Delegations to officers

- 4.1 Authority decisions are made by elected members but in order for an authority to be able to function on a day to day basis the law enables the full Authority to delegate certain of its functions to officers to exercise on behalf of the Authority. In addition, there are some functions which the law says must be exercised by specific officers.
- 4.2 The Authority's statutory officers are the Chief Fire Officer who is also the Head of Paid Service, the Treasurer and Clerk and the Monitoring Officer. The Chief Fire Officer, the other brigade managers, the Treasurer, the Clerk and the Monitoring Officer are the "senior managers" for the purposes of this scheme and are accountable to the Authority for how functions are exercised and how decisions are made within the areas for which they are responsible.

Dorset & Wiltshire Fire and Rescue Authority

Scheme of Delegation to Officers

- 4.3 The Localism Act gave local authorities a general power of competence (a power to do anything that an ordinary individual may do, unless the law contains some prohibition or limitation on acting). At the same time, the Localism Act extended the powers of fire and rescue authorities by enabling them to do anything considered appropriate for the purposes of carrying out their functions and anything considered appropriate for purposes incidental to their functions.
- 4.4 This scheme of delegation is modelled on the Localism Act approach in the sense that its starting point is a presumption that officers have delegated authority to exercise functions and make decisions in relation to the service areas for which they are responsible. This ability to act will give staff greater freedom and flexibility to act and is subject only to the requirements and limitations set out in this scheme.
- 4.5 Although the general approach in this scheme is a presumption that all officers have authority to exercise functions and make decisions in relation to the service areas for which they are responsible it is still important that this scheme should describe the roles and duties of the three statutory officers; and the powers delegated to them in order to perform their duties. In addition, there are some specific delegations to the statutory officers which need to be set out in the scheme. These delegations may only be exercised by them personally or by an officer authorised by them in writing for that purpose. These delegations are set out at the end of this scheme.
- 5. Conditions and limitations on the exercise of delegated authority by officers**
- 5.1 These conditions and limitations apply not only to senior managers but also to any other officer exercising delegated authority under this scheme. Senior managers must draw attention to the requirements of these conditions and limitations and through line management ensure that they are complied with.
- 5.2 Any action by an officer under delegated powers shall be in accordance with the overall policies approved by the full Authority and any relevant decision made by the Authority or of a committee of the Authority. Officers will also comply with principles for good decision making, described below.
- 5.3 If authority to act has been reserved to the full Authority or a committee then no officer may exercise delegated authority in relation to that matter without the approval of the Authority or committee. This limitation includes the ability

Dorset & Wiltshire Fire and Rescue Authority

Scheme of Delegation to Officers

to make key decisions. A key decision is one which has financial implications in excess of current provision, for the Authority of more than £250,000. Key decisions will be made by the full Authority only.

- 5.4 Before exercising any delegated power, officers must consider whether the decision to be made is of such a nature that it ought to be referred for a collective decision by the full Authority. Through the Chief Fire Officer clear communication must be maintained with the Chair of the Authority. To help decide if this decision may require referral to the full Authority, the Chair of the Authority may liaise with the appropriate Chair of the Local Performance and Scrutiny Committee in making this determination.
- 5.5 The other brigade managers have a responsibility for advising the Chief Fire Officer and elected members on strategic issues and they have an overall responsibility for the groups of services they lead and are accountable to Members for the performance of those services. Service managers and their staff when considering the exercise of delegated authority must be alert to this accountability and should consult the appropriate brigade manager if a delegated decision is likely to be as sensitive or significant (such that the Director might need to consult with the Chief Fire Officer or Members).
- 5.6 Delegated decisions must not involve the adoption of a new policy or major extension of an existing policy and shall exclude any instance where the magnitude or nature of a proposal is such that responsibility for the decision should be taken by the full Authority. Key decisions must be referred to Members for a collective decision.
- 5.7 All decisions, whether by the full Authority/a committee or by officers acting under delegated powers must be in accordance with the principles for good decision making. These are:
1. Proportionality (i.e. the action should be proportionate to the desired outcome)
 2. Due consultation and taking account of professional advice
 3. Respect for human rights and equalities law
 4. Presumption in favour of openness
 5. Clarity of aims and desired outcomes
 6. The decision reflects a balance of evidence or legal or financial position
 7. The requirement to be able to provide reasons for decisions.
- 5.8 There are circumstances where the Authority may enter into partnership arrangements with other local authorities, health bodies or other organisations for the shared delivery of services. These arrangements may involve shared budgets, delegations of roles across organisations, shared staffing and management structures. Under any such arrangements it may be necessary for a senior manager to give delegated authority to act to someone employed by a partner body and not by the Authority. In such cases particular

Dorset & Wiltshire Fire and Rescue Authority

Scheme of Delegation to Officers

care must be taken to describe in writing the limits of the extent of delegated authority to act on behalf of the Authority.

- 5.9 Where a proposed exercise of delegated authority is such that the Chair should be consulted and the Chair is absent or otherwise unavailable then the Vice Chair should be consulted. Similarly, in the absence of the Chair of a committee or group leader a Vice Chair or Deputy should be consulted.

6. General indemnity

- 6.1 All Members and officers involved in decision making on behalf of the Authority are protected by a general indemnity which protects each of them from personal liability for the consequences of action taken in good faith on behalf of the Authority.

7. Specific delegations

- 7.1 The starting point for the delegated authority to staff to act is the general authorisation in section 3 above, given to all officers to act within their roles. In consultation with the Chair and the Clerk, the Chief Fire Officer may sign up to external charters provided it is within the general scope of delegations associated with this role. Appendix A - Process for dealing with complaints related to Members' conduct

1. Receipt of Complaint

- 1.1. The Clerk will normally acknowledge receipt of the complaint within 5 working days of receiving it and refer it to the Monitoring Officer. The Monitoring Officer will write to the Member concerned (Subject Member) with details of the allegations (subject to any representations from the Complainant on withholding their identity which are accepted as valid by the Monitoring Officer).
- 1.2. The Subject Member may, within 10 working days of receipt, make written representations to the Monitoring Officer which must be taken into account when deciding how the complaint will be dealt with. Representations received after this time may be taken into account, at the discretion of the Monitoring Officer, but will in any event not be considered after the Monitoring Officer has issued the Complaint Initial Assessment.

2. Complaint Assessment

- 2.1. The Monitoring Officer will review the complaint and, after consultation with the Independent Person, take a decision (Complaint Initial Assessment) as to whether it merits further consideration or another course of action. This decision will normally be taken within 20 working days of receipt of a complaint.
- 2.2. A complaint will be rejected if:
 - a) It is not against one or more named Members of the Authority;
 - b) The Subject Member was not in office at the time of the alleged conduct/or a Code of Conduct was not in force at the time;
 - c) The complaint, if proven, would not be a breach of the Code of Conduct under which the Subject Member was operating at the time of the alleged misconduct.
- 2.3. If appropriate, the Monitoring Officer will then go on to apply the following criteria in deciding whether a complaint should be investigated, dealt with informally, or rejected:
 - a) Whether a substantially similar allegation has previously been made by the Complainant or the complaint has been subject of an investigation by another Regulatory Authority.
 - b) Whether the complaint is about something that happened over 6 months ago as those involved are unlikely to remember it clearly enough to provide credible evidence, or where the lapse of time means there would be little benefit or point in taking action now.
 - c) Whether the allegation is anonymous.
 - d) Whether the allegation discloses a potential breach of the Code of Conduct, but the complaint is not serious enough to merit any action
 - e) The resources needed to investigate and determine the complaint are wholly disproportionate to the allegations; or ii. whether, in all the circumstances, there is no overriding public benefit in carrying out an investigation.
 - f) Whether the complaint appears to be malicious, vexatious, politically motivated or 'tit-for-tat'.
 - g) Whether the complaint suggests that there is a wider problem throughout the Authority.
 - h) Whether it is apparent that the Subject Member has apologised for making an error and the matter would not warrant a more serious sanction.
 - i) Whether training or conciliation would be the appropriate response.

3. Identity of the Complainant

- 3.1. If the Complainant has asked for their identity to be withheld, this request will be considered by the Monitoring Officer at the Complaint Initial Assessment stage.
- 3.2. As a matter of fairness and natural justice, the Subject Member should usually be told who has complained about them and receive details of the complaint. However, in exceptional circumstances, the Monitoring Officer may withhold the Complainant's identity if on request from the Complainant, or otherwise, they are satisfied that the Complainant has reasonable grounds for believing that they or any witness relevant to the complaint may be at risk of physical harm, or their employment may be jeopardised if their identity is disclosed, or where there are medical risks (supported by medical evidence) associated with the Complainant's identity being disclosed.
- 3.3. If the Monitoring Officer decides to refuse a request by a Complainant to withhold their identity, the Complainant will be offered the option to withdraw the complaint, rather than proceed with their identity being disclosed.

4. Additional Information

- 4.1. The Monitoring Officer may require additional information to come to a decision and may request information from the Subject Member or otherwise.
- 4.2. In appropriate cases, the Monitoring Officer may seek to resolve the complaint informally, without the need for an investigation. Such Informal Resolution may involve the Subject Member accepting that their conduct was unacceptable and offering an apology, or taking other steps. Where the Subject Member or the Authority (in appropriate cases) make a reasonable offer of informal resolution, but it is rejected by the Complainant, the Monitoring Officer will take account of this in deciding whether the complaint merits further consideration.

5. Further Consideration

- 5.1. In the event that it is concluded that the complaint merits further consideration, the matter will be dealt with in one of three ways:
 - a. Informal Resolution
 - b. Summary Hearing
 - c. Formal Investigation
- 5.2. The decision as to how to proceed will be made by the Monitoring Officer following consultation with the Independent Person and will be final.

6. Informal Resolution

- 6.1. If the Monitoring Officer considers that the matter can reasonably be resolved without the need for a hearing, the Independent Person and the Complainant will be consulted to seek to agree a fair resolution. Such resolution may include the Member accepting that their conduct was unacceptable and offering an apology, and/or other remedial action. If the Member accepts the suggested resolution, the Monitoring Officer will take no further action. The target timescale for this will be 10 working days of the Complaint Initial Assessment.

- 6.2. If the Complainant or the Subject Member refuses Informal Resolution in principle or to engage with the agreed outcome, the Monitoring Officer will refer the matter for a Summary Hearing or a Formal Investigation without further reference to the Complainant or the Subject Member. The target timescale for this will be 15 working days from the refusal to cooperate.
- 6.3. Engagement in the Informal Resolution process will usually prevent the complaint from progressing to a Summary Hearing or an investigation.

7. Summary Hearing

- 7.1. Where, in the opinion of the Monitoring Officer, Informal Resolution is not appropriate or the Complainant and/or Subject Member refuse to co-operate, the Monitoring Officer will report on the complaint to a panel made up from the Appointments and Disputes Committee which may then conduct a Summary Hearing by the Panel before deciding whether the Member has failed to comply with the Code of Conduct and, if so, whether to take any action in respect of the Member. Alternatively, if the Panel decides that the complaint is not suitable for a Summary Hearing it may direct that a Formal Investigation takes place.
- 7.2. Under this procedure, the complaint and the comments made by the Subject Member will be collated into a report for the hearing. The Complainant and the Subject Member will be informed of the hearing date and the complaint, together with supporting evidence/witnesses and the Subject Member's comments and supporting evidence/witnesses will be presented to the hearing. The only witnesses permitted are people referred to in the evidence, and not, for example, character witnesses.
- 7.3. The Independent Person will be invited to attend the hearing.
- 7.4. The Panel will make a decision based on the evidence presented by the two parties about whether there has been a breach of the Code, and if so, what sanctions they may impose; and the views of the Independent Person.
- 7.5. This hearing should take place within 20 working days of the Complaint Initial Assessment.

8. Formal Investigation

- 8.1. Where the Monitoring Officer (following consultation with the Independent Person) considers that a complaint merits formal investigation, an Investigating Officer will be appointed. The Investigating Officer may be an Officer of the Authority or an external investigator.
- 8.2. The role of the Investigating Officer is to determine whether or not the Subject Member has a case to answer i.e. whether there is sufficient evidence to indicate that a potential breach of the Code may have occurred.
- 8.3. The Investigating Officer will follow guidance issued by the Monitoring Officer on the investigation of complaints. The guidance will follow the principles of proportionality and the cost-effective use of resources and shall be interpreted in line with these principles.
- 8.4. At the end of their investigation, the Investigating Officer will send a copy of their draft report to the Complainant and the Subject Member for any comments and will take these

into account before issuing their final report to the Monitoring Officer.

- 8.5. The target time for completion of the investigation is 12 weeks from the date of appointment.

9. Investigating Officer Finding of No Case to Answer

- 9.1. The Monitoring Officer (following consultation with the Independent Person) will review the Investigating Officer's report and, if they are satisfied that the Investigating Officer's report is satisfactory, will within 10 working days make a Confirmation Decision to confirm the finding of no failure to comply with the Code of Conduct.
- 9.2. The Monitoring Officer will write to the Complainant and the Subject Member with a copy of the Confirmation Decision and the Investigating Officer's final report. The target timescale will be 10 working days from receipt of the report.
- 9.3. If the Monitoring Officer is not satisfied that the investigation has been conducted satisfactorily, the Investigating Officer may be asked to reconsider their report and conclusion. This should be done within 5 working days of receipt of the report.

10. Investigating Officer finding of A Case to Answer

- 10.1 The Monitoring Officer will review the Investigating Officer's report and will then either send the matter for Hearing before the Panel or, after consulting the Independent Person, seek Informal Resolution. The target timescale is 10 working days from receipt of the report. Any Hearing shall take place as soon as reasonably practical.

11. Panel Hearing Procedure

- 11.1. The Hearing will be conducted fairly and in accordance with the rules of natural justice.
- 11.2. Prior to the Hearing the Monitoring Officer will give directions as to the presentation of evidence by the Independent Investigator and the Subject Member and the calling of any witnesses.
- 11.3. The Investigating Officer, the Subject Member and Independent Person shall be invited to attend the hearing.
- 11.4. At the hearing the procedure will be as follows (subject to any directions given under 11.2 above):
 - a) The Independent Investigator will present their report to the Panel and call any witnesses in support.
 - b) The Subject Member may ask the witnesses any questions.
 - c) The Panel may ask the witnesses any questions.
 - d) The Independent Investigator may clarify any issues with witnesses arising from the questions asked.
 - e) The Subject Member will respond to the report and call any witnesses in support
 - f) The Independent Investigator may ask the witnesses any questions.
 - g) The Panel may ask the witnesses any questions.
 - h) The Subject Member may clarify any issues with witnesses arising from the questions asked.

- i) The Independent Person may provide their views to the Panel.
- j) The Investigating Officer may make closing arguments.
- k) The Subject Member may make closing arguments.
- l) The Panel will retire with the Monitoring Officer (or their Deputy) to consider the case making findings of fact and come to a decision on whether the Code of Conduct has been breached.
- m) The Panel will announce their decision and give an indication of the sanction(s) it believes appropriate in the circumstances.
- n) If a breach of the code is found the Panel shall invite representations on the proposed sanction(s) to be imposed as set out in 12 below.
- o) The Panel will consider those representations and announce its final decision on sanction(s).

12. Action the Panel may take where a Member has failed to comply with the Code of Conduct

- 12.1 Where the Panel finds that a Member has failed to comply with the Code of Conduct, the Authority has delegated to the Panel such of its powers to take action in respect of individual Members as may be necessary to promote and maintain high standards of conduct. Accordingly, the Panel may decide to do one or more of the following:
- a) Publish its findings in respect of the Subject Member's conduct.
 - b) Report its findings to the Authority for information.
 - c) Recommend to the Authority that the Subject Member be censured.
 - d) Recommend to the Authority that the appointing Unitary Authority replaces the Subject Member on the Authority.
 - e) Recommend to the Subject Member's Group Leader (or in the case of un-grouped Members, recommend to the Authority) that they be removed from any or all Committees or Sub-Committees of the Authority.
 - f) Instruct the Monitoring Officer to arrange training for the Member.
 - g) Withdraw facilities provided to the Subject Member by the Authority.
 - h) Exclude the Subject Member from the Authority's premises, with the exception of meeting rooms as necessary for attending Authority, Committee and other approved meetings.
 - i) Require an apology in suitable terms to the Complainant/the Authority.

13. Confidentiality

- 13.1 All complaints received shall be dealt with on a confidential basis and all reports prepared for the Panel shall be regarded as containing Exempt Information under the Local Government Act 1972.
- 13.2 At the end of the process following a Summary Hearing or a Hearing following a formal investigation the Panel shall determine what (if any) information received shall be published and in what format subject to any views expressed by the Complainant and the Subject Member and the requirements of the General Data Protection Regulation and the Data Protection Act 2018.

14. Revision of these arrangements

- 14.1 The Panel may by resolution agree to amend these arrangements where they consider that it is expedient to do so in order to secure the effective and fair consideration of any matter

(following consultation with the Monitoring officer and the Independent Person).

15. Appeals

- 15.1 There is no right of appeal against a decision of the Monitoring Officer or of the Panel although redress to judicial review is available
